*Dramas of the Past on the Twentieth-Century Stage* Alexander Feldman, 2013-01-17 This book defines and exemplifies a major genre of modern dramatic writing termed historiographic metatheatre in which self reflexive engagements with the traditions and forms of dramatic art illuminate historical themes and aid in the representation of historical events and in doing so formulates a genre Historiographic metatheatre has been and remains a seminal mode of political engagement and ideological critique in the contemporary dramatic canon Locating its key texts within the traditions of historical drama self reflexivity in European theatre debates in the politics and aesthetics of postmodernism and currents in contemporary historiography this book provides a new critical idiom for discussing the major works of the genre and others that utilize its techniques Feldman studies landmarks in the theatre history of postwar Britain by Weiss Stoppard Brenton Wertenbaker and others focusing on European revolutionary politics the historiography of the World Wars and the effects of British colonialism The playwrights under consideration all use the device of the play within the play to explore constructions of nationhood and of Britishness in particular Those plays performed within the framing works are produced in places of exile where Feldman argues the marginalized negotiate the terms of national identity through performance **Seduced by Twilight** Natalie Wilson, 2014-01-10 Stephenie Meyer's Twilight saga has maintained a tight grip on the contemporary cultural imagination This timely and critical work examines how the Twilight series offers addictively appealing messages about love romance sex beauty and body image and how these charged themes interact with cultural issues regarding race class gender and sexuality Through a careful analysis of the texts the fandom and the current socio historical climate this work argues that the success of the Twilight series stems chiefly from Meyer's negotiation of cultural mores *Peopling the World* Charlotte Sussman, 2020-04-24 A compelling study of views about population and demographic mobility in the British long eighteenth century In John Milton's *Paradise Lost* of 1667 Adam and Eve are promised they will produce a race to fill the world a thought that consoles them even after the trauma of the fall By 1798 the idea that the world would one day be entirely filled

by people had become in Thomas Malthus's hands a nightmarish vision. In *Peopling the World*, Charlotte Sussman asks how and why this shift took place. How did Britain's understanding of the value of reproduction, the vacancy of the planet, and the necessity of moving people around to fill its empty spaces change? Sussman addresses these questions through readings of texts by Malthus, Milton, Swift, Defoe, Goldsmith, Sir Walter Scott, Mary Shelley, and others, and by placing these authors in the context of debates about scientific innovation, emigration, cultural memory, and colonial settlement. Sussman argues that a shift in thinking about population and mobility occurred in the third quarter of the eighteenth century. Before that point, both political and literary texts were preoccupied with useless populations that could be made useful by being dispersed over Britain's domestic and colonial territories. After 1760, a concern with the depopulation caused by emigration began to take hold. She explains this change in terms of the interrelated developments of a labor theory of value, a new idea of national identity after the collapse of Britain's American empire, and a move from thinking of reproduction as a national resource to thinking of it as an individual choice. She places Malthus at the end of this history because he so decisively moved thinking about population away from a worldview in which there was always more space to be filled and toward the temporal inevitability of the whole world filling up with people.

**Vermeer's Family Secrets** Benjamin Binstock, 2013-03-07

Johannes Vermeer, one of the greatest Dutch painters and for some the single greatest painter of all, produced a remarkably small corpus of work. In *Vermeer's Family Secrets*, Benjamin Binstock revolutionizes how we think about Vermeer's work and life. Vermeer, *The Sphinx of Delft*, is famously a mystery in art; despite the common claim that little is known of his biography, there is actually an abundance of fascinating information about Vermeer's life that Binstock brings to bear on Vermeer's art. For the first time, he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood. Lavishly illustrated with more than 180 black and white images and more than sixty color plates, the book also includes a remarkable color two-page spread that presents the entirety of Vermeer's oeuvre arranged in chronological order in 1/20 scale, demonstrating his gradual formal and conceptual development. No book on Vermeer has ever done this kind of visual comparison of his complete output. Like Poe's purloined letter, Vermeer's secrets are sometimes out in the open where everyone can see them. Benjamin Binstock shows us where to look. Piecing together evidence, the tools of art history, and his own intuitive skills, he gives us for the first time a history of Vermeer's work in light of Vermeer's life. On almost every page of *Vermeer's Family Secrets*, there is a perception or an adjustment that rethinks what we know about Vermeer, his oeuvre, Dutch painting, and Western Art. Perhaps the most arresting revelation of *Vermeer's Family Secrets* is the final one in response to inconsistencies in technique, materials, and artistic level: Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all, but by his eldest daughter, Maria. How he argues this is one of the book's many pleasures.

the development of literary treatments of Wales across three of the most tumultuous centuries in the history of British state formation *Writing Wales* explores how these period divisions have helped shape scholarly treatments of Wales and it asks if we should continue to reinforce such period divisions or else reconfigure our approach to Wales literary past The essays collected here reflect the full 300 year time span of the volume and explore writers canonical and non canonical alike George Peele Michael Drayton Henry Vaughan Katherine Philips and John Dyer here feature alongside other lesser known authors The collection showcases the wide variety of literary representations of Wales and it explores relationships between the perception of Wales in literature and the realities of its role on the British political stage *Explicit Utopias* Amalia
