### CHAPTER 12 - AMER

What does Amer say about living in America compared to India?

In India, people know their neighbors, but in America people keep to themselves and don't interact unless they are known friends.

Why do people start to talk to Amer after he plants vegetables in the garden?

They asked him about his eggplants and were curious about them.

How do the people of the garden solve problems?

They all work together and help each other to better their community and give a hand to those in need.

How does talking to the Polish woman change Amer's thoughts on Polish people?

He used to think that they were all stereotypically tough and ate lots of cabbage, but after talking to his Polish neighbor about her time during the Holocaust, he no longer cared about the stereotypes he had in mind and instead only cared about helping her as a person.

Why do the gardeners start to take better care of Boyce?

At first, they thought he was scary, but once they got to know him they realized how kind and selfless he was and they all started to take better care of him. Getting to know him made the gardeners abandon their stereotypes and accept Boyce for who he actually was.

How do the gardeners celebrate the end of summer?

They threw a big harvest celebration where they all shared food and talked to each other. It brought the community together and dispelled the imaginary borders between people.

Transforming Teacher Education through Service Learning provides a fresh look at educational reform through the lens of teacher preparation. It poses the question: Why service learning now as it discusses the meaningful ways service learning pedagogy can transform the approaches used to prepare teachers to educate tomorrow's children. The pedagogy of service learning has significant implications for teacher education. Its transformative aspects have far-reaching potential to address teacher candidate dispositions and provide deeper understanding of diversity. Knowledge of the pedagogy and how to implement it in candidates' future classrooms could alter education to a more powerful experience of democracy in action and enhance the civic mission of schools. The current and ongoing research found within this volume is meant to continue support of the notion of educational reform. Because the vision we hold becomes the reality we experience, it is imperative to consider the question: Why service learning now as we adjust teacher preparation programs to promote engaging opportunities for today's youth.      School Library Journal, 2005      **Thematic Guide to Young Adult Literature** Alice L.
