

Self-Assessment Paper

Topic: Describe your personality at work, using either the Meyers-Briggs typology, or other widely recognized personality characteristics. Give specific suggestions for pitfalls to be aware of and adaptations you may have to make, in order to improve your effectiveness.

Understanding who I am is critical in order to improve myself and to be successful in the workplace. In this paper, I will analyze my personality at work based on my managerial experience and the result of the Meyers-Briggs typology. From the assessment of my personality at work, I will reflect upon possible solutions for my weaknesses in order to improve my effectiveness in the workplace.

For three years, I was an academic supervisor at Young-do English Institution, which helps K-12 students learn the language from English-native instructors in South Korea. I was in charge of training and managing foreign teachers and counseling students and parents. Since most of my duties were related to dealing with different individuals and groups of people, I could discover my strong and weak points while interacting with people at my job.

According to Meyers-Briggs typology, my personality type is SP, so one of my strong points is negotiating. Fortunately, major responsibilities of my job included negotiating and communicating among different parties. For instance, when Korean executives released new policies, I had to convey the announcement to our faculty members and had to persuade why teachers should follow this direction. Since the culture and the way of thinking are different from

Resources in Education, 1997. *Advances in Medical Education*. A.J.J.A. Scherpbier, Cees P.M. van der Vleuten, J.J. Rethans, A.F.W. van der Steeg, 2012-12-06. About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour, and we tried to meet the high standards of a friendly and relaxed atmosphere, which has characterized previous Ottawa conferences. During and after the conference, about 250 papers were submitted for publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as carefully as possible. Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo Berger, whose expertise with desktop publishing and perseverance was a great help.
