Modern Auditing William C. Boynton, Raymond N. Johnson, 2005-08-19 Known in the academic market for its clear writing style and accessibility, this extensive revision focuses on auditor decision making and the auditor's role in providing assurance about the integrity of the financial reporting system. This is particularly important in light of the recent events involving WorldCom, Enron, Xerox, Aldelphia Tyco Waste Management, and other recent incidents that have questioned the quality of work in the auditing profession. Intended for a junior or senior level course in auditing or assurance services taught at most four year schools.

Accounting Paul D. Kimmel, Jerry J. Weygandt, Donald E. Kieso, 2010-12-01 With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision making approach to the material. The authors follow a macro to micro strategy by starting with a discussion of real financial statements first rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers. *Calculus Single Variable* Howard Anton, Irl C.
