Lee, 2016 *Waging War* Conflict Culture and Innovation in World History provides a wide ranging examination of war in human history from the beginning of the species until the current rise of the so called Islamic State Although it covers many societies throughout

time the book does not attempt to tell all stories from all places nor does it try to narrate important conflicts Instead author Wayne E Lee describes the emergence of military innovations and systems examining how they were created and then how they moved or affected other societies These innovations are central to most historical narratives including the development of social complexity the rise of the state the role of the steppe horseman the spread of gunpowder the rise of the west the bureaucratization of military institutions the industrial revolution and the rise of firepower strategic bombing and nuclear weapons and the creation of people s war

Cracks in the Dome: Fractured Histories of Empire in the Zanzibar Museum, 1897-1964 Sarah

Longair,2016-03-09 As one of the most monumental and recognisable landmarks from Zanzibar s years as a British Protectorate the distinctive domed building of the Zanzibar Museum also known as the Beit al Amani or Peace Memorial Museum is widely known and familiar to Zanzibaris and visitors alike Yet the complicated and compelling history behind its construction and collection has been overlooked by historians until now Drawing on a rich and wide range of hitherto unexplored archival photographic architectural and material evidence this book is the first serious investigation of this remarkable institution Although the museum was not opened until 1925 this book traces the longer history of colonial display which culminated in the establishment of the Zanzibar Museum It reveals the complexity of colonial knowledge production in the changing political context of the twentieth century British Empire and explores the broad spectrum of people from diverse communities who shaped its existence as staff informants collectors and teachers Through vivid narratives involving people objects and exhibits this book exposes the fractures contradictions and tensions in creating and maintaining a colonial museum and casts light on the conflicted character of the colonial mission in eastern Africa **A Destiny of Choice?** David

Blanke,David Steigerwald,2013-02-21 In the twentieth century Americans thought of the United States as a land of opportunity and equality To what extent and for whom this was true was of course a matter of debate however especially during the Cold War many Americans clung to the patriotic conviction that America was the land of the free At the same time another national ideal emerged that was far less contentious that arguably came to subsume the ideals of freedom opportunity and equality and that eventually embodied an unspoken consensus about what constitutes the good society in a postmodern setting This was the ideal of choice broadly understood as the proposition that the good society provides individuals with the power to shape the contours of their lives in ways that suit their personal interests idiosyncrasies and tastes By the closing decades of the century Americans were widely agreed that theirs was or at least should be the land of choice In *A Destiny of Choice* David Blanke and David Steigerwald bring together important scholarship on the tension

between two leading interpretations of modern American consumer culture That modern consumerism reflects the social cultural economic and political changes that accompanied the country s transition from a local producer economy dominated by limited choices and restricted credit to a national consumer marketplace based on the individual selection of mass produced mass advertised and mass distributed goods This debate is central to the economic difficulties seen in the United States today **United Asia** ,1952 *The World to 1500* Leften Stavros Stavrianos,1988 *CliffsTestPrep Regents Global History and Geography Workbook* American BookWorks Corporation,2008-06-02 Designed with New York State high school students in mind CliffsTestPrep is the only hands on workbook that lets you study review and answer practice Regents exam questions on the topics you re learning as you go Concise answer explanations immediately follow each question so everything you need is right there at your fingertips After going through the practice questions you can use the workbook again as a refresher to prepare for the Regents exam by taking a full length practice test You ll get comfortable with the structure of the actual exam while also pinpointing areas where you need further review About the contents Inside this workbook you ll find sequential topic specific test questions with fully explained answers for each of the following subjects World History Geography Economics Civics Citizenship and Government A full length practice test at the end of the book is made up of questions culled from multiple past Regents exams Use it to identify your weaknesses and then go back to those sections for more study It s that easy The only review as you go workbook for the New York State Regents exam
