Love in the Time of Self-Publishing Christine M. Larson,2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In Love in the Time of Self Publishing Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia s rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn

depends on fair treatment of all members      **Broken yet Beloved** Sharon G. Hey, I'm Pretty Sure This is Broken Casper Rigsby, Every day I look at the world around me and I keep thinking I'm pretty sure this is broken The unwritten social contract that keeps our world and societies moving seems to have gotten written down only for it to then be shredded and spit upon Our respective governments can't seem to decide if capitalist fascism or communist fascism is the best way to exploit workers and citizens for their own personal gain Nazis have launched rebranding campaigns now calling themselves the alt right and identitarians and white nationalists because obviously white nationalist is way different than white supremacist and doesn't really mean the exact same thing Here in the states our congress approved an accused alcoholic rapist to the highest court in the land with a lifetime appointment a man nominated by Individual One as he's known in court filings implicating him in numerous crimes who came to be president by working with Russia to meddle in and direct the outcome of our last presidential election Now honestly I can't see how anyone wouldn't look at the current state of affairs and not think all this stuff is broken or at the very least quite badly damaged and in need of some drastic repairs but some people you know who the fuck you are think things are great They think there are fine people who also happen to be Nazis which let's be honest really are mutually exclusive things You can't say Jim is a great guy He's also a Nazi because being a Nazi makes you a not so great guy I'd even go so far and I know I'm being bold and controversial here as to say that being a Nazi makes you a bad fucking person I know that may be offensive to Nazis and racists but it's almost

certainly better than being murdered for being alive and the wrong skin tone So yeah I m pretty sure all this is broken and if we re gonna fix it we have to first recognize it and talk about it     Can "White" People Be Saved?
