Nordic Tourism Issues And Cases Hardback:

Nordic Tourism Colin Michael Hall,Dieter K. Müller,Jarkko Saarinen,2009 Tourism is an increasingly important industry in the Nordic countries Denmark Finland Iceland Norway and Sweden that is integral to economic social and sustainable development Nordic Tourism is the first comprehensive and accessible introduction to tourism in the region and also includes case studies from leading Nordic researchers on specific destinations attractions resources concepts and issues **Nordic Tourism** C. Michael Hall,Dieter K. Muller,2008-11-11 Tourism is a major industry in the Nordic countries Denmark Finland Iceland Norway and Sweden as well as a growing field of academic study For many cities and regions tourism is also increasingly recognised as being integral to economic social and sustainable development In addition tourism also contributes to Nordic identity through destination promotion and tourism activities including winter tourism and the tradition of access to common land as well as specific forms of tourism such as second homes Nordic Tourism is the first comprehensive and accessible introduction to tourism in the region that links Nordic tourism research and concerns with key concepts in tourism studies The book consists of eleven chapters dealing with issues ranging from for example marketing and policy to nature based tourism culture and the contribution of tourism to environmental change The inclusion of case studies from leading Nordic researchers on specific destinations attractions resources sectors and developments also provides a valuable learning tool for all students of tourism Lost in the Supermarket Georgios Kyroglou,2024-12-17 Political consumerism refers to citizens use of boycotting and buycotting as they seek to influence political outcomes within the marketplace rather than through more traditional routes such as voting It is commonly understood as reflective of the progressively converging roles of the citizens and the consumers in late modernity In the aftermath of the Recession young people in particular are attempting to harness their individual consumer power to collectively express their political ethical and environmental considerations via their consumer choices The expansion of political consumerism among young people across several advanced liberal democracies has been theorised as a result of a wider cultural shift towards cosmopolitanism and postmaterialist value orientations and therefore as an outcome of affluence However the persistence of political consumerism as a preferred form of political participation among young people who were socialised under conditions of neoliberal austerity during and after the 2008 Global Financial Crisis calls for a re evaluation of these assumptions In particular given the susceptibility of political consumerism to a neoliberal modus operandi that attempts to commercialise citizenship itself the lack of literature problematising its emergence within a neoliberal socioeconomic context is indeed surprising This book addresses this gap by offering a detailed re evaluation of the underlying motivations values and identity orientations of young political consumers in a country of the European north United Kingdom as opposed to one of the European south Greece It will be of interest to academic specialists working in the areas of Political Sociology Youth Studies and Consumer Studies and scholars interested in political participation and political engagement *Forthcoming Books*
