Seitz,2012-12-06 Welcome to Middleware 98 and to one of England s most beautiful regions In recent years the distributed systems community has witnessed a growth in the number of conferences leading to difficulties in tracking the literature and a consequent loss of awareness of work done by others in this important field The aim of Middleware 98 is to synthesise many of the smaller workshops and conferences in this area bringing together research communities which were becoming fragmented The conference has been designed to maximise the experience for attendees This is reflected in the choice of a resort venue rather than a big city to ensure a strong focus on interaction with other distributed systems researchers The programme format incorporates a question and answer panel in each session enabling significant issues to be discussed in

the context of related papers and presentations The invited speakers and tutorials are intended to not only inform the attendees but also to stimulate discussion and debate

SDL 2001: Meeting UML Rick Reed,Jeanne Reed,2001-06-18

This volume contains the papers presented at the Tenth SDL Forum Copenhagen. SDL is the Specification and Description Language first standardized by the world telecommunications body the International Telecommunications Union (ITU) more than 20 years ago in 1976. While the original language and domain of application has evolved significantly, the foundations of SDL as a graphical state transition and process communication language for real time systems have remained. Today SDL has also grown to be one notation in the set of unified modelling languages recommended by the ITU: ASN.1, MSC, SDL, ODL and TTCN that can be used in methodology taking engineering of systems from requirements capture through to testing and operation. The SDL Forum is held every two years and has become the most important event in the calendar for anyone involved in SDL and related languages and technology. The SDL Forum Society that runs the Forum is a non profit organization whose aim it is to promote and develop these languages.
