- L'Égypte est un pays au climat semi-désertique dont seules les bandes fertiles de part et d'autre du Nil, le delta et quelques oasis, sont propres à l'implantation humaine. Le reste est recouvert par le désert Libyque à l'ouest, le désert égyptien à l'est et le Sinaï au nord-est.

[Legal Pluralism in the Arab World](#) Badouin Dupret, Maurits Berger, Laila

Al-Zwaini, 2023-03-20 Legal pluralism denotes both the multiple social fields which produce partly interacting norms and the state's recognition of the many sources of law which constitute its legislation It advocates a break from traditional legal theory in favour of describing the law from a more sociological and anthropological perspective The theory of legal pluralism proves a useful tool offering a challenging avenue for the examination of socio-legal activities Too often however the literature on legal pluralism has failed to place sufficient emphasis on its fundamental theoretical questions The result of a seminar held in Cairo in December 1996 with contributions by sociologists, anthropologists, political scientists, legal theoreticians and practising lawyers Legal Pluralism in the Arab World represents the first comprehensive examination of this phenomenon This collection of essays attempts to define the notion of legal pluralism from a sociological anthropological and theoretical perspective and highlights its connection with particular Arab societies and countries The work's unique features include a preface by John Griffiths one of the most significant voices in the formulation of the theory of legal pluralism a broad range of case studies demonstrating the diversity in formulations of the theory and a wide variety of approaches to the subject matter Legal Pluralism in the Arab World is the only work in existence which addresses the

concept of legal pluralism in this particular part of the world in such a systematic manner These essays significantly enrich the current canon on legal pluralism and offer the reader a unique example of its richness and usefulness *Shari'a, Justice and Legal Order* Rudolph Peters,2020-08-03 In Shari'a Justice and Legal Order Egyptian and Islamic Law Selected Essays Rudolph Peters discusses in 35 articles practice of both Shari'a and state law The principal themes are legal order and the actual application of law both in the judiciaries as well in cultural and political debates Many of the topics deal with penal law Although the majority of studies are situated in the Ottoman and especially Egyptian period few of them are of another region or a more recent period such as in Nigeria or also Egypt The book's historical studies are mainly based on archival judicial records and are definitively pioneering Although the selected articles of this book are the fruit of more than forty years of research most of them have constantly been cited
