Virtual History Alternatives And Counterfactuals:

Virtual History Niall Ferguson, 1997 This collection explores what would have happened if nine momentous events in history had turned out differently The answers are strictly based on the alternatives which we know contemporaries contemplated *Virtual History: Alternatives And Counterfactuals* Niall Ferguson, 2000-09-01 What if there had been no American War of Independence What if Hitler had invaded Britain What if Kennedy had lived What if Russia had won the Cold War Niall Ferguson author of the highly acclaimed *The Pity of War* leads the charge in this historically rigorous series of separate voyages into imaginary time and provides far reaching answers to these intriguing questions Ferguson s brilliant 90 page introduction doubles as a manifesto on the methodology of counterfactual history His equally masterful afterword traces the likely historical ripples that would have proceeded from the maintenance of Stuart rule in England This breathtaking narrative gives us a convincing detailed alternative history of the West from the accession of James III in 1701 to a Nazi occupied England to a U S Prime Minister Kennedy who lives to complete his term *Virtual History* Niall Ferguson, 2011-06-02 What if there had been no American War of Independence What if Kennedy had lived These are some of the questions answered in *Virtual History* which provides intriguing far reaching answers to these questions *Virtual History and the Bible* J.Cheryl Exum, 2021-09-06 To mark the new millennium *Virtual History and the Bible* asks where we are at the fin de siècle and how we got that way What if important events in ancient history had turned out differently How different might the present century be What if Merneptah s scribes were telling the truth when they claimed Israel has been laid waste What if the exodus and conquest had really happened What if we had no Assyrian account of Sennacherib s third campaign or the palace reliefs depicting his capture of Lachish What if the Chronicler did use the Deuteronomistic History What if Luke had never met Theophilus What if Paul had travelled east rather than west This is not fantasy or fiction The sixteen essays in this volume by eminent historians of the Bible engage in serious scholarly inquiry into alternative historical scenarios and their potential consequences The result is a trenchant demonstration of the ways historians set about working with the evidence in order to reconstruct the past Contributors Keith W Whitlam Lester L Grabbe Susan Ackerman Thomas L Thompson Ernst Axel Knauf Ehud Ben Zvi Diana Edelman Robert P Carroll Niels Peter Lemche Joseph Blenkinsopp A Graeme Auld Philip R Davies Loveday C A Alexander Richard Bauckham John Dominic Crossan Pheme Perkins

Computers, Visualization, and History David J Staley, 2015-04-16 This visionary and thoroughly accessible book examines how digital environments and virtual reality have altered the ways historians think and communicate ideas and how the new language of visualization transforms our understanding of the past Drawing on familiar graphic models maps flow charts museum displays films the author shows how images can often convey ideas and information more efficiently and accurately than words With emerging digital technology these images will become more sophisticated manipulable and multidimensional and provide historians with new tools and environments to construct historical narratives Moving beyond

the traditional book based on linear narrative digital scholarship based on visualization and hypertext will offer multiple perspectives dimensions and experiences that transform the ways historians work and people imagine and learn about history This second edition of *Computers Visualization and History* features expanded coverage of such topics as sequential narratives 3 D modeling simulation and video games as well as our theoretical understanding of space and immersive experience The author has also added *Guidelines for Visual Composition in History* for history and social studies teachers who wish to use technology for student assignments Also new to the second edition is a web link feature that users of the digital edition can use to enhance visualization within the text

Digital Games as History Adam Chapman,2016-05-05

This book provides the first in depth exploration of video games as history Chapman puts forth five basic categories of analysis for understanding historical video games simulation and epistemology time space narrative and affordance Through these methods of analysis he explores what these games uniquely offer as a new form of history and how they produce representations of the past By taking an inter disciplinary and accessible approach the book provides a specific and firm first foundation upon which to build further examination of the potential of video games as a historical form

With *Possible Worlds of Fiction and History* Lubomír Doležel reexamines the claim made first by Roland Barthes and then popularized by Hayden White that there is no fundamental distinction between fiction and history. Doležel rejects this assertion and demonstrates how literary and discourse theory can help the historian to restate the difference between fiction and history. He challenges scholars to reassess the postmodern viewpoint by reintroducing the idea of possible worlds. Possible worlds semantics reveals that possible worlds of fiction and possible worlds of history differ in their origins, cultural functions, and structural and semantic features. Doležel's book is the first systematic application of this idea to the theory and philosophy of history. *Possible Worlds of Fiction and History* is the crowning work of one of literary theory's most engaged thinkers. *Giacomo Meyerbeer and Music Drama in Nineteenth-Century Paris* Mark Everist, 2023-04-28

Nineteenth-century Paris attracted foreign musicians like a magnet. The city boasted a range of theatres and of genres represented there a wealth of libretti and source material for them: vocal, orchestral, and choral resources to say nothing of the set designs, scenery, and costumes. All this contributed to an artistic environment that had musicians from Italian and German-speaking states beating a path to the doors of the Académie Royale de Musique, Opéra Comique, Théâtre Italien, Théâtre Royal de l'Odéon, and Théâtre de la Renaissance. This book both tracks specific aspects of this culture and examines stage music in Paris through the lens of one of its most important figures, Giacomo Meyerbeer. The early part of the book, which is organised chronologically, examines the institutional background to music drama in Paris in the nineteenth century and introduces two of Meyerbeer's Italian operas that were of importance for his career in Paris. Meyerbeer's acculturation to Parisian theatrical mores is then examined, especially his moves from the Odéon and Opéra Comique to the opera house where he eventually made his greatest impact: the Académie Royale de Musique. The shift from Opéra Comique is then counterpointed by an examination of how an indigenous Parisian composer, Fromental Halévy, made exactly the same leap at more or less the same time. The book continues with the fates of other composers in Paris: Weber, Donizetti, Bellini, and Wagner, but concludes with the final Parisian successes that Meyerbeer lived to see: his two opéras comiques. **We Are What We Remember** Laura Mattoon D'Amore, Jeffrey Meriwether, 2013-01-16

Commemorative practices are revised and rebuilt based on the spirit of the time in which they are re-created. Historians sometimes imagine that commemoration captures history, but actually commemoration creates new narratives about history that allow people to interact with the past in a way that they find meaningful. As our social values change—race, gender, religion, sexuality, class—our commemorations do too. *We Are What We Remember: The American Past Through Commemoration* analyzes current trends in the study of historical memory that are particularly relevant to our own present: our biases, our politics, our contextual moment, and strive to name forgotten, overlooked, and

denied pasts in traditional histories Race gender and sexuality for example raise questions about our most treasured myths where were the slaves at Jamestowne How do women or lesbians protect and preserve their own histories when no one else wants to write them Our current social climate allows us to question authority and especially the authoritative definitions of nation patriotism and heroism and belonging How do we un commemorate things that were mis commemorated in the past How do we repair the damage done by past commemorations The chapters in this book contributed by eighteen emerging and established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before

Conditional Reasoning Raymond S. Nickerson, 2015 This book reviews the work of prominent psychologists and philosophers on conditional reasoning It provides empirical research on how people deal with conditional arguments and examines how conditional statements are used and interpreted in everyday communication It also includes philosophical and theoretical treatments of the mental processes that support conditional reasoning making it an ideal resource for students teachers and researchers with a focus in cognition across disciplines

Cultural Production in Virtual and Imagined Worlds Tracey Bowen, Mary-Lou Nemanic, 2009-12-14 *Cultural Production in Virtual and Imagined Worlds* foregrounds how the two important fields of visual culture and Internet culture interact This collection of essays explores the intersections overlaps and disparities in terms of how the two discourses illuminate our everyday negotiations as we become increasingly dependent on the Internet and virtual visual imaginings for

constructing who we are What is being examined here are the ways in which we use visual virtual lenses to see the world both individually and collectively This book represents a transnational effort that began as a series of conversations during the Mid Atlantic Popular American Culture conferences from 2005 2009 The editors a Canadian and an American have included contributors across national and geographic contexts Cultural Production is aimed at raising questions crossing borders and presenting points of departure for future scholarship in the relatively new and very rapidly changing disciplines of visual and virtual cultures Our critical approach to this study includes viewing Internet images as contested sites of cultural activity and also as sites that advance ideologies related to cultural transformation
