Police Learnership 2015:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations. *The Routledge Handbook on Global Community Corrections* Ioan Durnescu, James M. Byrne, Benjamin J. Mackey, Faye S. Taxman, 2024-06-25 The Routledge Handbook on Global Community Corrections assesses and analyzes the status of community corrections systems around the world, highlighting inter-regional and intra-regional variations in their design, implementation, and impact on policy and practice. Covering both probation and parole, this handbook brings together leading international experts to examine the myriad of systems developed under the broad heading of community corrections to manage community corrections populations at the pre-adjudication, adjudication, and post-release stages. Chapters are designed to consider the following questions: How many offenders are placed in community corrections systems around the globe? What are the key design features of these community corrections systems? What do we know about the effectiveness of community corrections within and across global regions? This is an essential reference text for all those engaged with community corrections, probation, and post-release policy in criminal justice. **Hum, Bharat Ke Rajyon Ke Log** Sanjeev Chopra, Tr. Sachin Chauhan, 2024-01-01 562 1947 75 1947 *Blackstone's Handbook for Policing Students 2015* Sofia Graca, Kevin Lawton-Barrett, Martin O'Neill, Stephen Tong, Robert Underwood, Dominic Wood, 2014-09-18 Blackstone's Handbook for Policing Students is a key text for student police officers undergoing their initial police training, including all the subject matter and skills development materials for the Initial Police Learning and Development Programme (IPLDP).

Joining Forces Nigel G. Fielding, 2023-03-31 The police, their methods, and their relations with the community had been

the focus of considerable criticism and debate in the 1980s While there were few books available on police training it was widely recognised that training lay at the heart of many initiatives for police reform Originally published in 1988 this book based on a five year study provides a detailed picture of the training of police recruits in Britain at the time The results themselves have centre stage in the book which addresses questions basic to any working group what kind of people join whether they think the job changes them their evaluation of the training and their officers their thoughts on new policies such as equal opportunities and community policing A direct connection is made between the recruits impressions and experiences and their growing conception of what makes for good policing The book traces how their attitudes to the force and their own roles change as they become familiar with the work and the occupational culture The formal and informal socialization process is a crucial influence on the standards of competence which lie behind every contact between police and public and is central to our understanding of how the police operate The author is a well known researcher in the police world both here and in the USA He relates his findings throughout to the North American experience which provides valuable points of comparison The important new material he presents informs debate and will still be of keen interest to students and researchers in the field
