Polarizing Development Lucia Pradella, Thomas Marois, 2014-11-20 The global economic crisis has exposed the limits of neoliberalism and dramatically deepened social polarization Yet despite increasing social resistance and opposition neoliberalism prevails globally Radical alternatives moreover are only rarely debated And if they are such alternatives are reduced to new Keynesian and new developmental agendas which fail to address existing class divisions and imperialist relations of domination This collection of essays polarizes the debate between radical and reformist alternatives by exploring head on the antagonistic structure of capitalist development The contributors ground their proposals in an international non Eurocentric and Marxian inspired analysis of capitalism and its crises From Latin America to Asia Africa to the Middle East and Europe to the US social and labour movements have emerged as the protagonists behind creating alternatives This book s new generation of scholars has written accessible yet theoretically informed and empirically rich chapters elaborating radical worldwide strategies for moving beyond neoliberalism and beyond capitalism The intent is to provoke critical reflection and positive action towards substantive change

Making Public in a Privatized World David A. McDonald, 2016-02-15 How do we provide effective public services in a deeply neoliberal world In the wake of the widespread failure of privatisation efforts societies in the global south are increasingly seeking progressive ways of recreating the public sector With contributors ranging from cutting edge scholars to activists working in health water and energy provision and with case studies covering a broad spectrum of localities and actors Making Public in a Privatized World uncovers the radically different ways in which public services are being reshaped from the grassroots up From communities holding the state accountable for public health in rural Guatemala to waste pickers in India and decentralized solar electricity initiatives in Africa the essays in this collection offer probing insights into the complex ways in which people are building genuine alternatives to privatization while also illustrating the challenges which communities face

in creating public services which are not subordinated to the logic of the market or to the monolithic state entities of the past

Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and

methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE

Victor, Brett Dolter, 2017-06-30 This Handbook assembles original contributions from influential authors such as Herman Daly Paul Ekins Marina Fischer Kowalski Jeroen van den Bergh William E Rees and Tim Jackson who have helped to define our understanding of growth and sustainability The Handbook also presents new contributions on topics such as degrowth the debt based financial system cultural change energy return on investment shorter working hours and employment and innovation and technology Explorations of these issues can deepen our understanding of whether growth is sustainable and in turn whether a move away from growth can be sustained With issues such as climate change looming large our understanding of growth and sustainability is critical This Handbook offers a broad range of perspectives that can help the reader to decide Growth Sustainability Both Or neither **Privatization in Turkey** Ahmet Zaifer, 2022-06-27 In Privatization in Turkey Power Bloc Capital Accumulation and State Ahmet Zaifer offers a rare look on privatization in Turkey that involves all three historical periods of Turkish privatization process 1980s and 1990s 2000s and 2010s and covers different forms of privatization from divestiture to public private partnership Benefiting from theoretically informed qualitative research spanning nearly a decade that has involved several interviews with key informant groups extensive review of newspaper articles and detailed analysis of annual reports of businesses Ahmet Zaifer convincingly proves that the acceleration of privatization in Turkey has not only provided advantages to so called favourable capital groups and the government elites but also consolidated the position of Capital in General at the expense of labouring popular classes and the natural environment of the entire country **Gilded Age** Ivan Franceschini, Nicholas Loubere, 2018-04-01 According to the Chinese zodiac 2017 was the year of the fire rooster an animal often associated with the mythical fenghuang a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing Considering the auspicious symbolism surrounding the fenghuang it is fitting that on 18 October 2017 President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a new era for Chinese socialism However in spite of such ecumenical proclamations it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities Migrant workers for one remain disposable Lawyers activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world This Yearbook traces the stark new gilded age inaugurated by the Chinese Communist Party It does so through a collection of more than 40 original essays on labour civil society and human rights in China and beyond penned by leading scholars and practitioners from around the world Handbook on In-Work Poverty Henning Lohmann, Ive Marx, 2018-01-26 There has been a rapid global expansion of academic and policy attention focusing on in work poverty acknowledging that across the world a large number of the poor are working poor Taking a global and multi disciplinary perspective this Handbook provides a comprehensive overview of current research at the intersection between work and poverty **Marx's**

Capital: An Unfinishable Project? ,2018-04-10 For almost 150 years scholars have been debating how to interpret Marx's seminal work *Capital* while they had access to just some of Marx's economic manuscripts. This changed in 2013 with the publication of all the known economic writings of Marx and Engels in the Marx Engels Gesamtausgabe (MEGA). One can now reconstruct the lines of intellectual development and one can also explore in detail how Friedrich Engels went about compiling volumes II and III of *Capital* from the vast legacy of manuscripts that Marx left behind after his death in 1883. It should be possible now to develop a more comprehensive and accurate picture of Marx as an economic theoretician. This volume of essays aims to initiate this process. Contributors are Christopher J. Arthur, Matthias Bohlender, Timm Graumann, Jorge Grespan, Gerald Hubmann, Heinz D. Kurz, Marcel van der Linden, Kenji Mori, Fred Moseley, Lucia Pradella, Geert Reuten, Regina Roth, and Carl Erich Vollgraf.
