The Making Of Sir Philip Sidney:

The Making of Sir Philip Sidney Edward Berry, 1998-12-15 Does a poet make himself or do his culture and his fiction make him Sir Philip Sidney is one of the most popular and enduring of Elizabethan authors and one of those most preoccupied with the relationship between self society and art Edward Berry s *The Making of Sir Philip Sidney* explores how Sidney made or created himself as a poet by making representations of himself in the roles of some of his most literary creations Philisides Astrophil and the intrusive persona of the Defence of Poetry Focusing on the significance of these and other self representations throughout Sidney s career Berry combines biography social history and literary criticism to achieve a carefully balanced portrayal of the poet s life and work This is a book that makes a significant contribution to our understanding of Sidney and is likely to appeal to both students and scholars of Sidney as well as to those wishing to understand the cultural events that shaped this central figure of the English Renaissance Electronic Format Disclaimer Figure 2 removed at the request of the rights holder *Sir Philip Sidney* Dorothy Connell, 1977 [Philip Sidney and the Poetics of Renaissance Cosmopolitanism](#) Robert E. analysis **The Life and Times of Sir Philip Sidney** S. M. Henry Davis, 1859 Preface signed S M D Includes bibliographical references **The Myth of Sisyphus** Elliott M. Simon, 2007 The myth of Sisyphus symbolizes the archetypal process of becoming without the consolation of absolute achievement It is both a poignant reflection of the human condition and a prominent framing text for classical medieval and renaissance theories of human perfectibility In this unique reading of the myth through classical philosophies pagan and Christian religious doctrines and medieval and renaissance literature we see Sisyphus the most cunning of human beings attempting to transcend his imperfections empowered by his imagination to renew his faith in the infinite potentialities of human excellence BOOK JACKET **Sidney and His Circle** Matthew Woodcock, 2010-05 In this compact yet wide ranging guide Matthew Woodcock presents a structured introduction to each of Sidney's major works **Encyclopedia of Renaissance Philosophy** Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the philosophy of the period between 1300 and 1650 **Renaissance Historicisms** Arthur F. Kinney, 2008 This collection of essays by major Renaissance scholars demonstrates the vitality and variety of current historical approaches to studying early modern England itself developing new ways to view the past Here are for example a hitherto unpublished memoir a discussion of Shakespeare's printed texts new biographical approaches to Tudor writers the recovery of manuscript sources the tracing of intertextual relations the impact of Renaissance humanism and close readings that join an understanding of words ambiguity to a refreshed awareness of historical context From publisher's description *English Women, Religion, and Textual Production, 1500-1625* Micheline White, 2016-05-13 Contributing to the growing interest in early modern women and religion this essay collection advances scholarship by introducing readers to recently recovered or little studied texts and by offering new paradigms for the analysis of women's religious literary activities Contributors underscore the fact that women had complex multi dimensional relationships to the religio political order acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra as well as extra confessional conflict The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate the importance of women's engagement with Catholicism throughout the period The collection also highlights the vitality of neglected intertextual genres such as prayers meditations and translations and it focuses attention on diverse forms of textual production such as literary writing patronage epistolary exchanges public reading and epitaphs Collectively *English Women Religion and Textual Production 1500 1625* offers a comprehensive treatment of the historical literary and methodological issues preoccupying scholars of women and religious writing **Sidney's Poetics** Michael Mack, 2005 Sidney's Poetics is essential reading not

only for students and scholars of Renaissance literature and literary theory but also for all who want to understand how human beings write and read creatively

Incest and Agency in Elizabeth's England Maureen Quilligan, 2011-06-07

Maureen Quilligan explores the remarkable presence in the Renaissance of what she calls incest schemes in the books of a small number of influential women who claimed an active female authority by writing in high canonical genres and who even more transgressively for the time sought publication in print. It is no accident for Quilligan that the first printed work of Elizabeth I was a translation done at age eleven of a poem by Marguerite de Navarre in which the notion of holy incest is the prevailing trope. Nor is it coincidental that Mary Wroth, author of the first sonnet cycle and prose romance by a woman printed in English, described in these an endogamous if not legally incestuous illegitimate relationship with her first cousin Sir Philip Sidney and his sister the Countess of Pembroke; translated the psalms together and after his death she finished his work by revising it for publication; the two were the subject of rumors of incest. Isabella Whitney cast one of her most important long poems as a fictive legacy to her brother, arguably because such a relationship resonated with the power of endogamous female agency. Elizabeth Carey's closet drama about Mariam, the wife of Herod, spends important energy on the tie between sister and brother. Quilligan also reads male-authored meditations on the relationship between incest and female agency and sees a far different Cordelia Britomart and Eve from what traditional scholarship has heretofore envisioned.

Incest and Agency in Elizabeth's England makes a signal contribution to the conversation about female agency in the early modern period. While contemporary anthropological theory deeply informs her understanding of why some Renaissance women writers wrote as they did, Quilligan offers an important corrective to modern theorizing that is grounded in the historical texts themselves.

Paper Monsters Samuel Fallon, 2019-05-17

In *Paper Monsters* Samuel Fallon charts the striking rise at the turn to the seventeenth century of a new species of textual being: the serial semifictional persona. When Thomas Nashe introduced his charismatic alter ego Pierce Penilesse in a 1592 text, he described the figure as a paper monster, not fashioned but begotten into something curiously like life. The next decade bore this description out as Pierce took on a life of his own, inspiring other writers to insert him into their own works. And Pierce was hardly alone: such figures as the polemicist Martin Marprelate, the lovers Philisides and Astrophil, the shepherd laureate Colin Clout, the prodigal wit Euphues, and in an odd twist the historical author Robert Greene, all outgrew their fictional origins, moving from text to text and author to author, purporting to speak their own words, even surviving their creators' deaths and installing themselves in the process as agents at large in the real world of writing, publication, and reception. In seeking to understand these paper monsters as a historically specific and rather short-lived phenomenon, Fallon looks to the rapid expansion of the London book trade in the years of their ascendancy. Personae were products of print, the medium that rendered them portable, free-floating figures. But they were also the central fictions of a burgeoning literary field; they embodied that field's negotiations between manuscript and print, and they forged a new form of public textual selfhood. Sustained by the appropriative rewritings they inspired,

personae came to seem like autonomous citizens of the literary public Fallon argues that their status as collective fictions passed among writers publishers and readers positioned personae as the animating figures of what we have come to call print culture

The Aesthetics of Service in Early Modern England Elizabeth Rivlin, 2012 In *The Aesthetics of Service in Early Modern England* Elizabeth Rivlin explores the ways in which servant master relationships reshaped literature The early modern servant is enjoined to obey his or her master out of dutiful love but the servant's duty actually amounts to standing in for the master a move that opens the possibility of becoming master Rivlin shows that service is fundamentally a representational practice in which the servant who acts for a master merges with the servant who acts as a master Rivlin argues that in the early modern period servants found new positions as subjects and authors found new forms of literature Representations of servants and masters became a site of contact between pressing material concerns and evolving aesthetic ones Offering readings of dramas by Shakespeare Jonson and Thomas Dekker and prose fictions by Thomas Deloney and Thomas Nashe Rivlin suggests that these authors discovered their own exciting and unstable projects in the servants they created

Maternity and Romance Narratives in Early Modern England Karen Bamford, Naomi J. Miller, 2016-05-06 Though recent scholarship has focused both on motherhood and on romance literature in early modern England until now no full length volume has addressed the notable intersections between the two topics This collection contributes to the scholarly investigation of maternity in early modern England by scrutinizing romance narratives in various forms considering motherhood not as it was actually lived but as it was figured in the fantasy world of romance by authors ranging from Edmund Spenser to Margaret Cavendish Contributors explore the traditional association between romance and women both as readers of fiction and as tellers of old wives tales as well as the tendency of romance plots with their emphasis on the family and its reproduction to foreground matters of maternity Collectively the essays in this volume invite reflection on the uses to which Renaissance culture put maternal stereotypes the virgin mother the cruel step dame as well as the powerful fears and desires that mothers evoke assuage and sometimes express in the fantasy world of romance

Space, Identity and Discourse in Anglophone Studies Attila Dósa, Ágnes Maguczné Godó, Anett Schäffer, Robin Lee Nagano, 2024-02-20 This book explores the dynamic intersections where cultures languages and spaces converge shaping identities and creating new forms of expression The authors attempt to unravel the complexity of narrative and imaginative spaces by examining cultural identities in global contexts The essays on literary representations consider abstract border crossings through rewriting and reappropriation in various genres while also looking at immigrant fiction post Anthropocene narratives and hybrid spaces through a postcolonial lens The essays on history and politics critically examine identity conflicts in the United States while the contributions on applied linguistics and language pedagogy offer insights into online teaching experiences during COVID 19 sociocultural aspects of language use and the formation of bilingual identities Employing innovative methods in reinterpreting literary works political narratives and different types of discourse past and present this collection contributes

to ongoing scholarly dialogues on the multifaceted challenges associated with identity construction through border crossings

Cupid in Early Modern Literature and Culture Jane Kingsley-Smith, 2010-09-09 Cupid became a popular figure in the literary and visual culture of post Reformation England He served to articulate and debate the new Protestant theory of desire inspiring a dark version of love tragedy in which Cupid kills But he was also implicated in other controversies as the object of idolatrous Catholic worship and as an adversary to female rule Elizabeth I's encounters with Cupid were a crucial feature of her image construction and changed subtly throughout her reign Covering a wide variety of material such as paintings emblems and jewellery but focusing mainly on poetry and drama including works by Sidney Shakespeare Marlowe and Spenser Kingsley Smith illuminates the Protestant struggle to categorise and control desire and the ways in which Cupid disrupted this process An original perspective on early modern desire the book will appeal to anyone interested in the literature drama gender politics and art history of the English Renaissance *The Polarisation of Elizabethan Politics* Paul

E. J. Hammer, 1999-06-24 A revisionist 1999 account of the career of Elizabeth I's favourite the 2nd Earl of Essex **Sons and Authors in Elizabethan England** Derek B. Alwes, 2004 It is the purpose of this study to suggest how such a career finally became conceivable at this historical moment by examining the ways each of these authors managed to negotiate a relationship to writing that enabled them to mature into adulthood not only without relinquishing their writing but actually by means of the self scrutiny and social interaction enabled by that writing This study also investigates some of the many cultural inflections of manhood in Elizabethan England both in the relationship of fathers to sons and the relationship of men to women **BOOK JACKET** **Love, Lust, and License in Early Modern England** Johanna Rickman, 2016-12-05 Focusing

on cases of extramarital sex Johanna Rickman investigates fornication adultery and bastard bearing among the English nobility during the Elizabethan and early Stuart period Since members of the nobility were not generally brought before the ecclesiastical courts which had jurisdiction over other citizens sexual offences Rickman's sources include collections of family papers primarily letters state papers and literary texts prescriptive manuals love sonnets satirical verse and prose romances as well as legal documents Rickman explores how attitudes towards illicit sex varied greatly throughout the period of study roughly 1560 1630 While some viewed it as a minor infraction others directed by a religious moral code viewed it as a serious sin seeks to illuminate the place of noblewomen in early modern aristocratic culture both as historical subjects considering personal circumstances and as a social group considering social position and status She argues that two different gender ideals were in operation simultaneously one primarily religious ideal which lauded female silence obedience and chastity and another more secular ideal which required noblewomen to be beautiful witty brave and receptive to the games of courtly love
