ISIS, Iran, Israel Mark Hitchcock, 2016-05-01 What's Next for the Middle East and How Will It Affect Us Iran has repeatedly declared its intention to destroy Israel ISIS continues to gain ground leaving a trail of death and terror in its wake And Russia is inserting itself into

Middle Eastern affairs in a power play prophesied long ago ISIS Iran Israel is an updated edition of the book Iran and Israel by prophecy scholar Mark Hitchcock with all new information on ISIS Russian involvement in Syria and Iran and the state of relations between Israel and Iran Hitchcock brings a strong biblical perspective to the latest conflicts while answering important questions such as Where did ISIS come from and why are its tactics so brutal Are we on the road to the Apocalypse Will there ever be peace in the Middle East What can we expect in the days to come How are events in the Middle East affecting America today An eye opening survey of where things stand and how it all ties in with Bible prophecy Nothing is Forbidden, Right? Queen-of-Sarcasm18, Some things were unattainable or rather forbidden Lex Greyson fell squarely into that category And from Isis perspective indulging in forbidden fruits always led to pain and suffering and she was prepared to bear the backlash That would be less painful than staying away from him **Is This the End? Bible Study Guide** Dr. David Jeremiah,2016-10-04 We have almost become immune to the reality of today s headlines from terrorism to natural disasters to political upheavals to refugees to disease to nuclear threats to failing economies and the list goes on People are thinking and asking Is this the end Nobody can answer that question specifically In fact Jesus warned about setting dates for the end of the age But this we can say Never have so many world level events developed so rapidly and with such catastrophic implications These events bring to mind the apostle Paul s words about birth pangs before the end of the age In Is This the End Study Guide Pastor David Jeremiah looks at ten major developments in America and the world that almost defy imagination Just a few years ago nobody could have imagined the things we hear about daily in the news We need to understand these events what they are what the Bible says about them and how we should respond as followers of Christ Follow Dr Jeremiah as he unfolds five developments in America and five developments on the international stage all of which beg the question Is this the end **International Law and the War with Islamic State** Saeed Bagheri,2021-07-15 Armed non state actors ANSAs often have economic aims that international law needs to respond to This book looks at the aim of Islamic State to create an effective government with an economically independent regime which focused on key oilfields in Syria and Iraq Having addressed Islamic State s quest for energy resources in Iraq and Syria the book explores the lawfulness of the war with Islamic State from a variety of legal aspects It has been attempted to make inroads into the most controversial aspects of contradictions in the application of jus ad bellum and jus in bello particularly when discussing the use of extraterritorial armed force against ANSAs and the obligation to protect civilian objects including the natural environment The question is whether the targeting of energy resources should be regarded as a violation of the laws of armed conflict even though the war with Islamic State being classified as a non international armed conflict Ambitious in scope the study argues that legal theory and state practice are still problematic as to how and under what conditions states can justify resorting to military force in foreign territory and to what extent they can target natural resources as being part of state property Furthermore it goes on to examine the differences between international and non international armed

conflicts to establish whether there is any difference in the targeting of energy resources as part of the war sustaining capabilities of either party Through an examination of the Islamic State case the book offers a comprehensive study to close the gaps in jus in bello by contextualising the questions of civilian protection victimisation and state responsibility by evaluating the US s war sustaining theory as a justification for the destruction of a territorial state s natural resources that are occupied by ANSAs Assad's Abhorrent Chemical Weapons Attacks United States.
