*Responsible Business and Sustainable Development* David Mhlanga, Mufaro Dzingirai, 2024-06-28 Responsible and sustainable business practices are becoming increasingly important in the information age as companies are realizing the need to address ethical and social issues associated with their operations. In today's interconnected world, businesses have access to vast amounts of data that can be used to improve their bottom line but can also pose significant risks to individuals and society. At the same time, responsible business practices have the capacity to positively impact international development goals such as poverty alleviation, economic growth, responsible consumption, and health and social welfare. This book presents a transdisciplinary framework for addressing the 2030 Sustainable Development Agenda, offering fresh perspectives from the Global South. It provides an overview of the key challenges and opportunities associated with responsible business practices in the information age, including the need to balance privacy and security concerns with data analytics and innovation. It also highlights some of the best practices and initiatives such as stakeholder engagement, transparency, and accountability. The book establishes the role of green leadership in promoting responsible production, discusses the importance of measuring and reporting on sustainable innovation, including the use of sustainability metrics and reporting frameworks. Further, it debates the importance of incorporating ethics and sustainability in strategic management practices. It provides a comprehensive understanding of the integration of these values in organizational decision making. By delving into the pressing matters that impact our world today, the book generates a sense of urgency and awareness among its audience. Its inclusive approach to exploring various perspectives and opinions invites readers to participate in a constructive dialogue, broadening their understanding and deepening their empathy for different viewpoints. **Zimbabwe's New Diaspora** JoAnn

McGregor, Ranka Primorac, 2010-06-01 Zimbabwe's crisis since 2000 has produced a dramatic global scattering of people. This volume investigates this enforced dispersal and the processes shaping the emergence of a new diaspora of Zimbabweans abroad, focusing on the most important concentrations in South Africa and in Britain. Not only is this the first book on the diasporic connections created through Zimbabwe's multifaceted crisis, but it also offers an innovative combination of research on the political, economic, cultural, and legal dimensions of movement across borders and survival thereafter, with a discussion of shifting identities and cultural change. It highlights the ways in which new movements are connected to older flows and how displacements across physical borders are intimately linked to the reworking of conceptual borders in both sending and receiving states. The book is essential reading for researchers, students in migration, diaspora, and postcolonial literary studies. [Financial Inclusion and Sustainable Development in Sub-Saharan Africa](#) David Mhlanga, Mufaro Dzingirai, 2025-02-07 This book delves into the transformative power of the Fourth Industrial Revolution (4IR) in reshaping the landscape of sustainable development in one of the world's most vibrant regions. This edited volume explores the synergy between cutting-edge digital technologies and innovative financial strategies to drive responsible business practices that

align with the Sustainable Development Goals (SDGs). This book navigates the complex interplay between technological advancements, financial inclusion, corporate social responsibility, environmental stewardship, and ethical governance. It critically assesses how digital innovations ranging from artificial intelligence, blockchain, and the Internet of Things (IoT) to green technologies and fintech, alongside novel financial instruments such as green bonds and impact investing, can address key concerns such as poverty alleviation, gender parity, and environmental sustainability. With a wide range of expert contributions, this volume offers useful insights and practical solutions to promote financial inclusion and encourage sustainable growth in Sub-Saharan Africa. It achieves this through a combination of empirical research, case studies, and policy analysis. This resource is crucial for policymakers, scholars, and development practitioners who are dedicated to advancing inclusive and sustainable development. *Zimbabwe, Industrial and Commercial Energy Use* Richard Hosier, 1988

Perspectives on Blockchain Technology and Responsible Investing Trivedi, Sonal, Aggarwal, Rashmi, Singh, Gurmeet, 2023-05-01. The transformation of green investment and climate finance by blockchain establishes the relationship between global efforts for climate adaptation and this innovative technology. The benefit of blockchain in the financial sector is realized as it has brought various operational changes such as smart contracts, changes in regulation and governance, changes in transactions, and more. In every situation, sustainable development goals (SDGs) must be accomplished with the help of society's collective creativity, knowledge, technology, and financial resources. *Perspectives on Blockchain Technology and Responsible Investing* highlights the applications of blockchain technologies to foster sustainable development in different fields. The book details a number of significant characteristics and concerns regarding blockchain finance and sustainability that every manufacturer, policymaker, or academician may have. Covering topics such as banking performance and smart contracts, this premier reference source is an essential resource for entrepreneurs, practitioners, professionals, business leaders, policymakers, students, and educators of higher education, researchers, and academicians. **Sustainable Finance and Business in Sub-Saharan Africa** David Mhlana, Mufaro Dzingirai, 2024-12-13. In the 21st century, the imperative for sustainable development has assumed a paramount role, echoing the pressing global concerns surrounding environmental degradation, social inequalities, and economic challenges. Within this context, Sub-Saharan Africa emerges as a region of particular significance where the pursuit of sustainability holds immense promise and relevance. Despite being endowed with abundant natural resources and a vibrant entrepreneurial spirit, Sub-Saharan Africa grapples with enduring issues of poverty, inequality, and environmental harm. This book explores the innovative paradigms of sustainable finance and business within Sub-Saharan Africa, exploring how novel approaches can effectively tackle the region's most pressing challenges while simultaneously catalyzing economic growth and societal progress. The chapters presented here comprise a diverse array of cutting-edge financial strategies, circular economy initiatives, technological advancements, and business models that are revolutionizing sustainable development across the continent. Sub-Saharan Africa, characterized by its youthful demographic

and rapidly expanding economies is poised for transformation Yet it confronts formidable obstacles in the form of poverty inequality and environmental degradation The United Nations Sustainable Development Goals SDGs offer a comprehensive framework to address these issues However realizing these objectives requires innovative solutions that can surmount the unique constraints of the region Fortunately Sub Saharan Africa is a crucible of innovation with a growing community of entrepreneurs financiers and decision makers committed to sustainable development Initiatives promoting circular economies are reducing waste and enhancing resource efficiency while financial instruments like impact investing and green bonds are attracting new streams of funding Simultaneously technological breakthroughs such as mobile payment systems and renewable energy solutions are expanding access to essential services and driving economic expansion Despite these encouraging advancements Sub Saharan Africa stands at a pivotal juncture in its journey towards sustainability This book with a focus on practical and scalable solutions endeavors to showcase the most promising and successful models that can propel sustainable development across the region

Urban Ecology in the Global South Charlie M. Shackleton, Sarel S. Cilliers, Elandrie Davoren, Marié J. du Toit, 2021-04-20 Against the background of unprecedented rates of urbanisation in the Global South leading to massive social economic and environmental transformations this book engages with the dire need to understand the ecology of such settings as the foundation for fostering sustainable and resilient human settlements in contexts that are very different to the Global North It does so by bringing together scholars from around the world drawing together research and case studies from across the Global South to illustrate in an interdisciplinary and comprehensive fashion the ecology of towns and cities in the Global South Framed using a social ecological systems lens it provides the reader with an in depth analysis and understanding of the ecological dynamics and ecosystem services and disservices within the complex and rapidly changing towns and cities of the Global South a region with currently scarce representation in most of the urban ecology literature As such the book makes a call for greater geographical balance in urban ecology research leading towards a more global understanding and frameworks The book embraces the complexity of these rapid transformations for ecological and environmental management and how the ecosystems and the benefits they provide shape local ecologies livelihood opportunities and human wellbeing and how such knowledge can be mobilised towards improved urban design and management and thus urban sustainability
