Conspiracies of Conspiracies Thomas Milan Konda, 2019-03-15 The most comprehensive intellectual history of American conspiracy theories yet produced The American Historical Review It s tempting to think we live in an unprecedentedly fertile age for conspiracy theories with seemingly each churn of the news cycle bringing fresh manifestations of large scale paranoia But the sad fact is that these narratives of suspicion and the delusional psychologies that fuel them have been a constant presence in American life for nearly as long as there s been an America In this sweeping book Thomas Milan Konda traces the country s obsession with conspiratorial thought from the early days of the republic to our own anxious moment Conspiracies of Conspiracies details centuries of sinister speculations from antisemitism and anti Catholicism to UFOs and reptilian humanoids and their often incendiary outcomes Rather than simply rehashing the surface eccentricities of such theories Konda draws from his extraordinary assemblage of conspiratorial writing to crack open the mindsets that lead people toward these self sealing worlds of denial What is distinctively American about these theories he

argues is not simply our country's homegrown obsession with them but their ongoing prevalence and virulence. Konda proves that conspiracy theories are no harmless sideshow. They are instead the dark and secret heart of American political history, one that is poisoning the bloodstream of an increasingly sick body politic. Meticulous scholarship, essential context for understanding our present mess. Survival: Global Politics and Strategy. Incisive and engaging. Konda's assessment of the new dynamics of conspiracy theories in contemporary US politics is a significant contribution. Written with a clarity of expression rare in academic writing, the book is accessible to a wide readership. Choice

Conspiracies Charlotte Greig, Mike Rothschild, 2024-08-01 The most compelling, most absurd and most shocking conspiracy theories in one stunningly illustrated hardback edition. 22 November 1963, Dallas, Texas, US: President John F. Kennedy is assassinated as his motorcade passes through the city's streets. The assassin is soon captured and revealed to be disaffected Communist sympathizer Lee Harvey Oswald. Did Oswald have help, and if so, who? From The Bilderberg Group, simply a group of international financiers concerned to promote democracy throughout the world, or is there a more sinister power at work? And what really happened to Princess Diana's Mercedes in the Paris underpass? Conspiracy theories arise out of the belief that mysterious forces are conspiring behind the scenes to control and manipulate an unsuspecting public. In times gone by, the prime movers behind conspiracies would have been seen as Satanists, witches, anarchists. Modern conspiracy theorists, however, are more usually keen to blame the CIA. The fact that the CIA has been proven beyond doubt to have been involved in conspiracies simply strengthens their hand. **Conspiracies** looks at a range of the most interesting theories of this nature, from the risibly far-fetched such as the belief that the world is run by the lizard people, to the only too true and tragic such as the overthrow and murder of Chilean President Salvador Allende.
