Batten, 1988-03-31 My interest in the history of the Struve family is long standing but lay dormant until 1972 when I found myself organizing a symposium of the International Astronomical Union in memory of the second Otto Struve To satisfy my own curiosity I investigated the precise relationships of the famous astronomers in the family and published an account of them based mainly on secondary sources The exercise made me aware that there was no biography in English of the first and probably still the greatest astronomer in the clan Friedrich Georg Wilhelm Struve Wilhelm's son the first Otto wrote an account in German of his father's life intended primarily for family and close friends and though printed not generally available Through the kindness of a family member I have a copy from which I have been able to work The Soviet historian of science Z K Sokolovskaya wrote a biography in Russian in 1964 to mark the centenary of Wilhelm's death This had a limited edition and my efforts to obtain a copy failed Neither work has in its entirety been translated into English although Michael Meo of Oakland California and Kevin Krisciunas of Hilo Hawaii have kindly made available to me their unpublished translations of some sections of the latter In the of a complete copy however when I decided to attempt an English absence language biography I thought it best to do so independently of Sokolovskaya's Common Grace (Volume 2) Abraham Kuyper, 2019-04-17 Common Grace is often considered Abraham Kuyper's crowning work an exploration of how God expresses grace even to the unsaved Kuyper firmly believed that though many people in the world will remain unconverted God's grace is still shown to the world as a whole The second volume of Common Grace contains Kuyper's doctrinal

exploration of the impact and implications of this aspect of Reformed theology Never before published in English this translation of Common Grace is now available as part of a 12 volume series of Kuyper s most important writings on public theology Created in partnership with the Kuyper Translation Society and the Acton Institute the Abraham Kuyper Collected Works in Public Theology will deepen and enrich the church s understanding of public theology in today s world *The Lifetime Network* Emily L. McMahon,2024-05-22 This volume the first of its kind provides both an introduction to a theologian who many in the field consider to be one of the very finest of his generation and a compendium of selections each with an explanatory preface from his prolific writings that ultimately touch upon every aspect of Catholic thought Making use of a method that is deeply rooted in the prayer life and sacred Scripture of the Church Donald Keefe pursued a decades long reflection on the significance of the central assertion of faith that Jesus Christ is Lord the author of a world that is centered on personal hence free life and that Jesus the Lord is Christ the Savior in whom broken freedom is made whole and then transformed through union with his own freedom and his own life that is at once human and divine Union with Christ then is not only the destiny of the world but also its beginning And this work of life which is the integrating work of creation has as its vanguard the Eucharist the sacramental life of Christ that is born of a free priesthood acting in Christ consecrating the free self offering of the Church The Eucharistic dynamism of creation reveals so Keefe argues the innermost structure of the real shedding light on any human question The many and

far reaching topics that Keefe addressed are arranged in the book under a series of chapter headings that are intended to provide an overview of the content of Catholic theology from Christology to Mariology to ecclesiology The result will be to convey the rich and varied fruit of a gifted mind but also it is hoped some sense of the man himself *Dogmatics III* Emil Brunner,2025-04-24 One of the great twentieth century works of theology Emil Brunner s *Dogmatics* series presents a profoundly biblical systematic theology Finding a path between Barth and Bultmann Brunner explores key doctrines such as the doctrine of God creation and redemption and the doctrine of the church and of faith These foundational texts from a leading theologian of the 20th century are crucial for scholars and students illuminating how modern Protestant theology was formed in the last century The first volume serves as an introduction to Brunner s view of dogmatics setting out the nature position and necessity of dogmatics before exploring the many facets of the doctrine of God In detailed vigorous explanation Brunner considers the nature and will of God including his name his holiness his wisdom and his glory Thorough insightful and extensive this first volume is an illuminating beginning to this series The second volume explores the fundamental concepts of the protestant doctrine from creation and the creator to man s position within creation sin and its consequences and the saving work of Jesus Brunner explores all of the possibilities of these fundamentals and his detailed thoughtful arguments are designed as he says to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ The third and final volume focusses on the theology of the Church as a reflection of God s self revelation through the Holy Spirit and an eternal consummation of Divine self communication Drawing together the understanding gleaned in the previous two volumes Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers *The Epistles of Paul* Philip Schaff,1888 **Sermons preached in Christ Church Brighton.
