Reconfiguring Racial Capitalism Mingwei Huang, 2024-10-18 In *Reconfiguring Racial Capitalism* Mingwei Huang traces the development of new forms of racial capitalism in the twenty first century Through fieldwork in one of the China malls that has emerged along Johannesburg s former mining belt Huang identifies everyday relations of power and difference between Chinese entrepreneurs and African migrant workers in these wholesale shops These relations Huang contends replicate and perpetuate global structures of white supremacy anti Blackness capitalism and colonialism even when

whiteness is not present Huang argues that this dynamic reflects the sedimented legacies and continued operation of white supremacy and colonialism which have been transformed in the shift of capitalism's center of gravity toward China and the Global South These new forms of racial capitalism and empire layer onto and extend histories of exploitation and racialization in South Africa Taking a palimpsestic approach Huang offers tools for understanding this shift and decentering contemporary Western conceptions of race empire and racial capitalism in the Chinese Century Arbitration Costs Susan D.

Franck,2019-03-26 Investment treaty arbitration sometimes called investor state dispute settlement or ISDS has become a flashpoint in the backlash against globalization with costs becoming an area of core scrutiny Yet conventional wisdom about costs is not necessarily wise To separate fact from fiction this book tests claims about investment arbitration and fiscal costs against data so that policy reforms can be informed by scientific evidence The exercise is critical as investment treaties grant international arbitrators the power to order states both rich and poor to pay potentially millions of dollars to foreign investors when states violate the international law commitments made in the treaties Meanwhile the cost to access and defend the arbitration can also climb to millions of dollars This book uses insights drawn from cognitive psychology and hard data to explore the reality of investment treaty arbitration identify core demographics and basic information on outcomes and drill down on the costs of parties counsel and arbitral tribunals It offers a nuanced analysis of how and when cost shifting occurs parses tribunals rationalization or lack thereof of cost assessments and models the variables most likely to predict costs using data to point the way towards evidence based normative reform With an intelligent interdisciplinary approach that speaks to ongoing reform at entities like the World Bank's ICSID and UNCITRAL this book provides the most up to date study of investment treaty dispute settlement offering new insights that will shape the direction of investment treaty and arbitration reform more broadly *Joint Acquisitions List of Africana* ,1985 **International Books in Print** ,1991 Гражданская авиация Великобритании.
