Zimsec June 2013 Question Paper 1

Mel Gray

Zimsec June 2013 Question Paper 1:

Integral Green Zimbabwe Elizabeth Mamukwa, Ronnie Lessem, Alexander Schieffer, 2016-05-23 Integral Green Zimbabwe An African Phoenix Rising by Ronnie Lessem Alexander Schieffer and Liz Mamukwa is the first book in the Integral Green Society and Economy series a series which has three overarching aims The first aim is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represents The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors Lessem and Mamukwa are Zimbabwean in origin but because Zimbabwe is today like a phoenix rising from the ashes and has the opportunity to recreate itself anew

Grid-locked African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

Reconciliation and Religio-political Non-conformism in Zimbabwe Joram Tarusarira, 2016-05-20 Religio political organisations in Zimbabwe play an important role in advocating democratisation and reconciliation against acquiescent silenced or co opted mainstream churches Reconciliation and Religio political Non conformism in Zimbabwe analyses activities of religious organisations that deviate from the position of mainline churches and the political elites with regard to religious participation in political matters against a background of political

conflict and violence Drawing on detailed case studies of the Zimbabwe Christian Alliance ZCA Churches in Manicaland CiM and Grace to Heal GtH this book provocatively argues that in the face of an unsatisfactory religious and political culture religio political non conformists emerge seeking to introduce a new ethos even in the face of negative sanctions from dominant religious and political systems **Healing the Wounds of Gukurahundi in Zimbabwe** Dumisani

Ngwenya,2017-12-14 This book is based on a participatory action research project carried out with a group of former Zimbabwe People s revolutionary Army ZPRA which was the armed wing of the Zimbabwe African People s Union ZAPU which was led by the late Joshua Nkomo ZPRA was the primary target of Gukurahundi a pogrom by the Mugabe government which left an estimated 20 000 civilians dead and countless others tortured in the early 1980s in Matebeleland Zimbabwe It has been almost 30 years since the violence ended but there has never been an official healing and reconciliation programme or truth commission into the atrocities The government chose the path of amnesia by granting a blanket amnesty to all involved The regime has enforced a culture of silence over the event through repression and intimidation The book is a culmination of a two year journey by the group and the author of an exploration of group based self healing approaches to the pain caused by the violence of Gukurahundi The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980

Darlington Mutanda,2016-11-22 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966 1980 Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower Mapping research and innovation in the Republic of Zimbabwe Lemarchand, Guillermo A.,Schneegans, Susan,2014-08-11

Innovation, Regional Integration, and Development in Africa Samuel Ojo Oloruntoba,Mammo Muchie,2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the

advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as policymakers in regional economic communities and the African Union

Agriculture, Autonomous Development, and Prospects for Industrialization in Africa Emmanuel Ndhlovu, 2025-03-06 The book investigates the intersection of agriculture and development in Africa and how it impacts rural industrialisation prospects It provides a comprehensive view of the position of agriculture in African socio economic activities and the agricultural sector's potential as the source for continental development and industrialisation prospects Significant research has been done on African development with a focus placed on the problematic role played by slavery colonialism and later by incompetent African leaders who failed to steer development of the type that delivers a progressive sustained and sustainable transformation of lives and societies There is limited focus on the possibility of agriculture being the potential basis of African development and the chance for industrialisation This is a matter of concern considering the dominance of agriculture as a livelihood and income source for many people on the continent In contributing to the debate on development in Africa this book aims to show how agriculture can serve as the basis for African development and industrialisation This will be achieved by i providing a detailed historical description of the position of agriculture in African socio economic activities ii outlining the trajectory of African development with a focus on agriculture innovation and mechanisation iii identifying challenges to the development of African agriculture iv exploring the opportunities for agricultural development in Africa and v providing practical and policy recommendations to improve African agriculture and make it the engine for development and industrialisation Utilising a multidisciplinary approach which combines political economy social policy financial inclusion and empowerment approaches the book also shows how engagement of youth and women digitalisation and the provision of support by public and private actors can jump start agriculture as the engine of African development and industrialisation Taken together with this conscious effort to promote a multi disciplinary discussion the book is valuable reading for students policymakers and activists interested in emerging new directions in African development thinking and research

Reclaiming Africa Sam Moyo, Praveen Jha, Paris Yeros, 2018-09-03 This book presents the findings of research conducted by scholars and activists associated with the Agrarian South Network based mainly in Africa Asia and Latin America The research articulates a Southern perspective on the new scramble for Africa with a view to strengthen tri continental solidarities The book explains the significance of the new scramble in terms of the economic structures inherited

from the late nineteenth century scramble and the subsequent post independence period The renewed competition for Africa's land and natural resources and the resumption of economic growth at the turn of the millennium have revived concerns regarding the continent's position in the world economy and the prospects for its development in the twenty first century In this regard the book addresses two related issues the character of the expansion of Southern competitors in relation to the more established Western strategies and the impact of the renewed influx of investments inland minerals and associated infrastructure The findings are presented with empirical rigor and conceptual clarity to enable the reader to grasp what really is at stake in the twenty first century an epic struggle to reclaim Africa from the monopolies that exercise control over its land minerals labour and destiny

Archives, Objects, Places and Landscapes Manyanga, Munyaradzi, Chirikure, Shadreck, 2017-04-11 Dissatisfaction has matured in Africa and elsewhere around the fact that often the dominant frameworks for interpreting the continent's past are not rooted on the continent's value system and philosophy This creates knowledge that does not make sense especially to local communities The big question therefore is can Africans develop theories that can contribute towards the interpretation of the African past using their own experiences Framed within a concept revision substrate the collection of papers in this thought provoking volume argues for concept revision as a step towards decolonizing knowledge in the post colony The various papers powerfully expose that cleansed knowledge is not only locally relevant it is also locally accessible and globally understandable

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes

Joshua Mqabuko Nkomo of Zimbabwe Sabelo J. Ndlovu-Gatsheni, 2017-08-17 This book is a pioneering study of Joshua Mqabuko Nkomo a Zimbabwean nationalist whose crucial role in the country's anti colonial struggle has largely gone unrecognized These essays trace his early influence on Zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement

and postcolonial national building processes as well as his denigration by the winners of the 1980 elections Mugabe's Zimbabwe African National Union Patriotic Front The Nkomo that emerges is complex and contested the embodiment of Zimbabwe's tortured trajectory from colony to independent postcolonial state This is an essential corrective to the standard history of twentieth century Zimbabwe and an invaluable resource for scholars of African nationalist liberation movements and nation building **Chihera in Zimbabwe** Ezra Chitando, Sophia Chirongoma, Munyaradzi Nyakudya, 2023-02-27

Zimbabwean social media has been awash with images of a woman character spirit or concept called Chihera Traditionally a woman descending from the Mhofu Eland lineage totem is known as Chihera In the cumulative tradition of the Shona a Zimbabwean ethnic group Chihera is a fiercely independent assertive free spirited and no nonsense woman This volume seeks to deepen reflections on the Chihera phenomenon in the context of the search for gender justice in Zimbabwe and Africa The authors reflect on how this radical indigenous feminist ethic circulating on social media can animate the quest for Zimbabwean and African women's full liberation from patriarchy and all oppressive forces They grapple with the issue of generating culturally sensitive theories and approaches to galvanize the struggle for African women's liberation in post colonial settings Second they locate the Chihera mystique in the context of the practical struggle for women's empowerment Third the volume illustrates how the Chihera phenomenon could be utilized for gender justice in Zimbabwe and beyond

Extreme Natural Hazards, Disaster Risks and Societal Implications Alik Ismail-Zadeh, Jaime Urrutia Fucugauchi, Andrzej Kijko, Kuniyoshi Takeuchi, Ilya Zaliapin, 2014-04-17 A unique interdisciplinary approach to disaster risk research including global hazards and case studies for researchers graduate students and professionals The Handbook of Social Work and Social Development in Africa Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective *State-Business Relations*

and Economic Transformation in South Africa and Zimbabwe Sinan Baran, 2023-06-12 In *State Business Relations and Economic Transformation in South Africa and Zimbabwe* Unfinished Transformation Sinan Baran examines state business relations SBRs in semi peripheral South Africa and peripheral Zimbabwe after each country's transition to majority rule to address why SBRs are likely to either consolidate or fracture in post transition communities In both countries the majority governments faced unresolved post transition divisions relating to race inequality and underdevelopment Baran analyzes the liberalisation and indigenisation policy choices intended to address these areas that are impacting the mining industries in South Africa and Zimbabwe as case studies Using comparative analysis and a Modern World Systems lens he argues that semi peripheral countries are less susceptible to pressures from domestic and external powers than peripheral countries during periods of economic transformation He further argues that China's significant political and economic presence in a peripheral country like Zimbabwe has more effect on SBRs than in a semi peripheral country like South Africa Climate Change Adaptations in Dryland Agriculture in Semi-Arid Areas Xavier Poshiwa, G. Ravindra Chary, 2022-02-10 This book highlights the approaches for achieving trans disciplinary research integration for semi arid dryland agriculture systems under changing climates while also identifying the elements of a collaborative research agenda that are needed to advance global food security The book emphasizes climate change being a reality and how drylands are bearing the brunt in diverse ways The major impact of dryland agriculture is on communities that need to avoid the short and long term impacts of the changing climate adapt strategies that can minimize these impacts and be able to mitigate climate change for which they need climate smart interventions These interventions are only realized through knowledge and experience sharing among stakeholders from different sectors and backgrounds It is in this context that the publication was seen as a necessity in order to bring together ideas that will transform lives and build adaptation capacities thereby providing the much needed products in communities leading to development Justiciability of Human Rights Law in Domestic Jurisdictions Alice Diver, Jacinta Miller, 2015-12-15 This collection of 16 essays by 19 contributors calls into question the notion of domestic justiciability across a wide range of human rights issues such as health human dignity criminal justice property and transitional democracy The authors offer critical analyses of a number of rights frameworks focusing in considerable detail upon specific countries e.g. Libya Colombia Ireland the United Kingdom Northern Ireland South Africa Nigeria Zimbabwe Kenya India and regions e.g. Europe Africa to highlight the various challenges which continue to vex human rights advocates and scholars In doing so they pinpoint some of the major tensions that still exist within developing and developed jurisdictions via a myriad range of perspectives The essays collectively present a diverse assortment of themes unified by a single golden thread that of the domestic interpretations given to human rights protections They raise questions as to how such rights might be made substantive at the level of domestic implementation and query the extent to which these rights can or even should be enforced by the courts The potential strains in the relationship between human rights and the rule of law is further called

into question by another central theme that of human dignity A fundamental dilemma arises in respect of the extent to which a right to dignity can best be promoted protected or monitored by domestic decision makers Similar issues are apparent within the context of the protection of those human rights which increasingly tend to engage social political or economic considerations and interests Whilst these arguments are often framed principally in terms of rights the collective message that emerges from this book is that such rights may often be in fact essentially non justiciable Readers of this text will perhaps feel compelled to reflect carefully and fully upon what it tells us about human rights law generally and the extent to which such rights may be truly amenable to adjudication by the courts

Teacher in Zimbabwe ,2014 Sports Law in Zimbabwe Tinashe Madebwe,Jimcall Pfumorodze,Emma Chitsove,Thabo Fiona Khumalo,2022-09-20 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Zimbabwe deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Zimbabwe will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law
