Occasional Papers ,1993 *Zimbabwe* Brian Raftopoulos,Tyrone Savage,2004 The author is from the Institute of Development Studies at the University of Zimbabwe He examines the paradox ensuing from the Lancaster House Settlement at Zimbabwe s independence that whilst colonial rule was ended the framework was provided for continued white privilege on the basis of control of the economy by this elite and through them transnational capital He analyses the responses of the ruling including official elite the black petty bourgeoisie and the group associated with the former Rhodesian Front

MY LIFE IN THE STRUGGLE FOR THE LIBERATION OF ZIMBABWE M Mpofu,2014 This is an elucidation of accumulation of personal experience within the context of socio cultural internalization in particular and the socio political environment in general that is intended to provide some insights into a plethora of ingredients that converged and crystallized into a catalytic impetus that socially transformed my generation from village boys to highly politicised freedom fighters during the 1960s to the 1970s in Rhodesia I hvae done this by tracing the footprints of my experience which show multiple stages and strands of cultural social political and physical determinants that landed themselves on my growth path starting from socialization in my parents home all the way through the local community traditions and schooling to active service for the freedom of my country at local and national levels Here the crucial elements that moulded my social being in a very profound way have been ventilated to show when and how I became able to distinguish antagonistic differences between justice and injustice at my very early age Proceeding from here I have brought out how I teamed up with others whose political outlook and aspirations were identical with mine as we all voluntarily joined anti colonial struggle

starting from invisible low intensity activism in schools and towns up to risky adventures that finished up in armed struggle within a broad national perspective the narration further demonstrates the domesticity of the movements that championed liberation struggle as drivers were citizens who grew up in the rural villages and urban African Townships where they progressively became aware that they were born unlike their parents in a country under colonial administration In doing all this I had to spell out how my interaction with informative social vectors brought awareness on how my country Zimbabwe was colonized and governed by Europeans without the consent of the indigenous natives who showed their resentment to foreign rule by rebelling First Chimurenga within six years of colonization but failed only to succeed in the second rebellion Second Chimurenga after ninety years of racial domination Furthermore I believe I have laid bare how I became a civilian freedom fighter together with peers of my generation in the second rebellion where intolerable weight of oppression caused us to abandon nonviolent methods of struggle in favour of using arms of war to face a cobweb of security forces led by superb military machine of the colonial state wherein lay formidable challenges confronting rebelling citizens the armed struggle phase meant that fighters and their collaborators had to face those challenges in the theatre of operation Initially they exhibited more weaknesses than strengths and lost opportunities that were in the form of abundance of political support of masses of people in the country the overall process of the struggle exhibited strengths and costly weaknesses right from the civilian phase up to the armed struggle phase with or without my participation It was not until freedom fighters gained experience in planning and undertaking field operations that they became able to apply appropriate tactics that caused the struggle to gain sustainability in the theatre of operation More importantly the narration makes the point that the Rhodesian colonial system was presided over by European settler leaders who hardly recognized African citizens as entitled to participation in governance of the country with equal rights in social political economical and juridical spheres of societal setting of two main races Exclusion of African from consensus on the act of Unilateral Declaration of Independence UDI by Ian Douglas Smith was a fundamental blunder that precipitated nationwide fury that lead to a civil war in which a deprived citizen fought against a privileged citizen who was indoctrinated with falsehood that his adversary freedom fighter was sponsored by foreign powers of a communist type while the latter rightly believed that he was fighting to free his country from racially imposed injustices of deprivation More importantly the narration lays emphasis on the creation of massive political structures throughout the country well below the radar of legality for the purpose of sustaining guerrilla warfare in the face of the super professional Rhodesian security forces In this connection the final phase of armed struggle demonstrated to all at home and abroad that freedom fighters became significantly effective because they were politically rooted in the oppressed population whence came their strength against superior military hardware and a water tight counter insurgency strategy of the Rhodesian security forces Essentially it was that political strength not Communist powers or betrayal by the West which caused all stakeholders to become willing to come to a negotiating table at Lancaster House in

L. Molyneux,P. G. Stone,2003-09-02 The Presented Past is concerned with the differences between the comparatively static well understood way in which the past is presented in schools museums and at historic sites compared to the approaches currently being explored in contemporary archaeology It challenges the all too frequent representation of the past as something finished understood and objective rather than something that is constructed and therefore open to co existing interpretations and constant re interpretation Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non documentary sources derived from archaeological study and oral histories The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught The Presented Past will be of interest to teachers archaeologists cultural resource managers in fact anyone who is concerned with how the past is presented      **The Legacy of Robert Mugabe and the Zimbabwe African National Union-Patriotic Front - A One-Party State facilitating Dictatorship and Disregard for Human Rights** Dr. Mark O'Doherty,2017-02-05 Even to this day humanity has not advanced beyond petty and primitive national conflicts succumbing to despotic leaders who use xenophobia nationalism propaganda and power politics to manipulate and indoctrinate the people of their respective countries This not only applies to countries such as Russia and Iran but also to the UK EU and US who deprive honest and decent folks of basic necessities such as a Basic Income Guarantee BIG if they do not fall in line with the economic and political establishment However my dear friends at MI6 the GRU and SVR are certainly right about one thing That the war

between Russia and Ukraine must end to stop further loss of innocent life and restore the UN Convention on the Rights of the Child UNCRC in the International Community The 2022 Russian invasion has resulted in tens of thousands of deaths on both sides and caused Europe's largest refugee crisis since World War II Russia's invasion of Ukraine has forced 7.9 million Ukrainians to flee the country and internally displaced another 5.9 million according to the United Nations High Commissioner for Refugees UNHCR The United Nations General Assembly passed a resolution condemning the invasion and demanding a full withdrawal of Russian forces Pope Francis has also denounced the wake of death and destruction caused by Russia's nearly year-long offensive in Ukraine describing the war as a crime against God and humanity He said attacks on civilian infrastructure were causing deaths not only from gunfire and acts of violence but also from hunger and freezing cold Every act of war directed to the indiscriminate destruction of whole cities or vast areas with their inhabitants is a crime against God and humanity which merits firm and unequivocal condemnation Furthermore the International Criminal Court has opened an investigation into crimes against humanity in Ukraine So we expect our colleagues in the Government of Russia to make Peace with Ukraine and uphold the Legacy of Peace by Mikhail Gorbachev and Boris Yeltsin by working together with the Ukrainian government to restore Human Rights and International Law in the International Community We encourage all Russian troops to come back home to their loved ones in Russia so that Peace can be manifested and we can all live happy and fulfilling lives Love and Light God Bless Acting president of Russia and the US Mark O Doherty BTB Global Peacebuilding
