Rethinking Plastics in Product Design Geoff

Isaac, 2025-03-06 This book addresses the urgent need to reduce our use of virgin fossil plastics. It provides a framework for designers and manufacturers to re-evaluate their use of plastics and promotes the use of alternative materials with lower environmental impacts. Lightweight, strong, and cheap plastics are often the obvious choice when designing consumer durables, but their use is resulting in devastating health and environmental consequences. Recycled plastics and bioplastics are often suitable replacements; however, mechanical and aesthetic differences mean working with these materials is often challenging and expensive. In this book, Geoff Isaac outlines strategies for developing more environmentally friendly design solutions and provides practical guidance for designers who seek to use plastics more sustainably. Chapters include case studies selected from sixty chairs made from renewable plastics, as chairs are often developed to showcase the potential of new materials and their suitability for applications across other consumer products. The book also features interviews with a range of industry representatives and international designers, including Philippe Starck, Barber Osgerby, Konstantin Grcic, Bertjan Pot, and Karim Rashid, to illustrate recent designs using renewable plastics. This book provides an empowering blueprint for designers to make environmentally responsible decisions in today's business landscape.

**Software Evolution and Feedback** Nazim H. Madhavji, Juan Fernandez-Ramil, Dewayne Perry, 2006-08-30 Evolution of software has long been recognized as one of the most problematic and challenging areas in the field of software engineering, as evidenced by the high, often up to 60-80% life cycle costs attributed to this activity over the life of a software system. Studies of software evolution are central to the understanding and practice of software development. Yet it has received relatively little attention in the field of software engineering. This book focuses on topics aimed at giving a scientific insight into the aspect of software evolution and feedback. In summary, the book covers conceptual, phenomenological, empirical, technological, and theoretical aspects of the field of software evolution, with contributions from the leading experts. This book delivers an up-to-date scientific understanding of what software evolution is to show why it is inevitable for real-world applications and it demonstrates the role of feedback in software development and maintenance. The book also addresses some of the phenomenological and technological underpinnings and includes rules and guidelines for increased software evolvability and, in general, sustainability of the evolution process. **Software Evolution and Feedback** provides a long overdue scientific focus on software evolution and the role of feedback in the software process, making this the indispensable guide for all software practitioners, researchers, and managers in the software industry.

**The Innovation Journey of Wi-Fi** Wolter Lemstra, Vic

Hayes, John Groenewegen, 2010-11-18 Wi-Fi has become the preferred means for connecting to the internet at home, in the office, in hotels, and at airports. Increasingly, Wi-Fi also provides internet access for remote communities where it is deployed by volunteers in community-based networks, by operators in hotspots, and by municipalities in hotzones. This book traces the global success of Wi-Fi to the landmark change in radio spectrum policy by the US FCC in 1985, the initiative by NCR

Corporation to start development of Wireless LANs and the drive for an open standard IEEE 802.11 released in 1997. It also singles out and explains the significance of the initiative by Steve Jobs at Apple to include Wireless LAN in the iBook, which moved the product from the early adopters to the mass market. The book explains these developments through first-hand accounts by industry practitioners and concludes with reflections and implications for government policy and firm strategy.
