*Breaking the Frames* Marc Singer, 2019-01-09 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimization from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct

camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself. The consequence is a growing disconnect in the ways that comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work. *Breaking the Frames* Populism and Prestige in Comics Studies surveys the current state of comics scholarship interrogating its dominant schools questioning their mutual estrangement and challenging their propensity to champion the comics they study. Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies making the case for a field that can embrace more critical and oppositional perspectives. Working through extended readings of some of the most acclaimed comics creators including Marjane Satrapi, Alan Moore, Kyle Baker and Chris Ware, Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics.

**Beasts of the Deep** Jon Hackett, Seán Harrington, 2018-01-10. *Beasts of the Deep*: Sea Creatures and Popular Culture offers its readers an in depth and interdisciplinary engagement with the sea and its monstrous inhabitants through critical readings of folklore, weird fiction, film, music, radio and digital games. Within the text there are a multitude of convergent critical perspectives used to engage and explore fictional and real monsters of the sea in media and folklore. The collection features chapters from a variety of academic perspectives: postmodernism, psychoanalysis, industrial organisational analysis, fandom studies, sociology and philosophy are featured. Under examination are a wide range of narratives and media forms that represent reimagine and create the Kraken, mermaids, giant sharks, sea draugrs and even the weird creatures of H P Lovecraft. *Beasts of the Deep* offers an expansive study of our sea born fears and anxieties that are crystallised in a variety of monstrous forms. Repeatedly the chapters in the collection encounter the contemporary relevance of our fears of the sea and its inhabitants through the dehumanising media depictions of refugees in the Mediterranean to the encroaching ecological disasters of global warming, pollution and the threat of mass marine extinction.

**League of Extraordinary Gentlemen**, At last the original two League Of Extraordinary Gentlemen epics are collected in a single volume. In this amazingly imaginative tale Allan Quatermain, Mina Murray, Captain Nemo, Dr Henry Jekyll and Edward Hyde and Hawley Griffin, the Invisible Man unite to defeat a deadly menace to London and all Britons. Then one month later the skies over England are filled with flaming rockets as Mars launches the first salvo of an invasion. Only our stalwart adventurers can save mother England and the Earth itself.
