

Neonatal Resuscitation Program™ (NRP) *Online Examination, 6th Edition*

I. Overview

- a. The new NRP course format now requires learners to study the *Textbook of Neonatal Resuscitation, 6th Edition*, and take the online examination before attending an NRP course. Hospital-based instructors and regional trainers will also be required to take the online examination, as will applicants for an NRP instructor course.

In the previous NRP course, the majority of time was invested in lectures and a proctored exam. In this new model, self-study of the textbook and DVD and completion of the exam prior to the course frees up time for more valuable learning activities, including demonstration, discussion, hands-on practice, skills evaluation, and simulation and debriefing.

This test covers the material in Lessons 1 through 9 the *Textbook of Neonatal Resuscitation, 6th Edition*. Learners who are successful in completing the lesson reviews in the textbook should not find the exam difficult.

II. The pre-evaluation:

- a. Please enter a valid email address so that your records can be retrieved easily for future verification. A personal email address is preferred in the event you should change institutions and because institutional spam filter settings may prevent delivery of some communications.
- b. The pre-evaluation for the online examination will ask if you have identified an NRP instructor for the hands-on components of the NRP Provider Course. You should not begin the examination without having an instructor identified. If you complete the exam before you identify an instructor for hands-on skills and you are unable to locate a course within 30 days, you will need to retake the exam at your expense.

III. Taking the exam:

- a. The online test is arranged by lesson, in the same order as in the textbook.
- b. You may skip questions and come back to them.

Thermonuclear Monarchy: Choosing Between Democracy and Doom Elaine Scarry,2014-02-24 From one of our leading social thinkers a compelling case for the elimination of nuclear weapons During his impeachment proceedings Richard Nixon boasted I can go into my office and pick up the telephone and in twenty five minutes seventy million people will be dead Nixon was accurately describing not only his own power but also the power of every American president in the nuclear age Presidents Eisenhower Kennedy Johnson and Nixon each contemplated using nuclear weapons Eisenhower twice Kennedy three times Johnson once Nixon four times Whether later presidents from Ford to Obama considered using them we will learn only once their national security papers are released In this incisive masterfully argued new book award winning social theorist Elaine Scarry demonstrates that the power of one leader to obliterate millions of people with a nuclear weapon a possibility that remains very real even in the wake of the Cold War deeply violates our constitutional rights undermines the social contract and is fundamentally at odds with the deliberative principles of democracy According to the Constitution the decision to go to war requires rigorous testing by both Congress and the citizenry when a leader can single handedly decide to deploy a nuclear weapon we live in a state of thermonuclear monarchy not democracy The danger of nuclear weapons comes from potential accidents or acquisition by terrorists hackers or rogue countries But the gravest danger comes from the mistaken idea that there exists some case compatible with legitimate governance There can be no such case Thermonuclear Monarchy shows the deformation of governance that occurs when a country gains nuclear weapons In bold and lucid prose Thermonuclear Monarchy identifies the tools that will enable us to eliminate nuclear weapons and bring the decision for war back into the hands of Congress and the people Only by doing so can we secure the safety of home populations foreign populations and the earth itself
