Guionistas Javier Figuera Espadas, Elena Fernández Vera, Elisa García Faya, Marta García Outón, Blanca Marín Planas, Noelia Fernández Aceituno, Alicia Patón, Belén Carrillo Arroyo, Bruno Pardo Porto, Pablo Seara García, Rocío Arcenegui Morón, Estefanía Martínez, Sara Buendía González, Lisa Ceinos, 2016-02-02 Desde hace años pido a mis alumnos que realicen una investigación sobre un guionista Los primeros trabajos salvo excepciones no conseguían profundizar en la materia Muchos eran interesantes estaban bien escritos pero resultaban genéricos Entonces descubrí que el problema era fruto de no haber instruido bien a los alumnos en una de las máximas de la investigación académica: acotar el estudio Algunos titulaban sus análisis con el nombre del guionista y el resultado a veces se limitaba a glosar la biografía del artista y a analizar sus escritos más destacables sintetizando las claves de su estilo Empecé a insistir a los alumnos que debían delimitar su trabajo y buscar un enfoque pertinente y original Debían investigar al autor hasta dar con una perspectiva nueva El resultado fue la aparición de artículos cada vez más sugerentes De pronto me sorprendí con enfoques distintos más originales y profundos Los alumnos empezaron a ahondar en aspectos no tan estudiados en el mundo del guion como el uso de la pantalla partida en *Annie Hall* las claves para descubrir si el personaje de River Song en *Doctor Who* es o no esencial al relato o la evolución del concepto del amor a través de los diálogos en la trilogía Antes por citar algunos de los contenidos de este libro Empecé a disfrutar más con los trabajos de mis alumnos hasta el punto de sentir una cierta culpabilidad al ser el único privilegiado en tener acceso a aquellas primeras e interesantes investigaciones Y entonces surgió la idea por qué no compartirlo Por qué no permitir el acceso general a dicho material Y de esta forma se conformó el propósito de un libro digital Propusimos la idea a la editorial de la universidad CEU Ediciones que desde el primer momento alentó la iniciativa Los alumnos acogieron el proyecto

con entusiasmo de modo que nos pusimos todos a pulir nuestros artículos cara a la publicación. Aquí tiene el lector el resultado espero que sea de su interés. Muchas gracias a los jóvenes autores con los que me enorgullezco de compartir publicación. Muchas gracias también por su generosidad pues unánimemente decidimos ceder los derechos de autor del libro a un proyecto solidario apadrinado por la universidad. Muchas gracias a CEU Ediciones por su constante apoyo. Muchas gracias a la universidad.

Impossible Puzzle Films Miklos Kiss, 2017-04-28 Narrative complexity is a trend in contemporary cinema. Since the late 1990s there has been a palpable increase in complex storytelling in movies. But how and why do complex movies create perplexity and confusion? How do we engage with these challenges? And what makes complex stories so attractive? By blending film studies narrative theory and cognitive sciences, Kiss and Wilemsen look into the relation between complex storytelling and the mind. Analysing the effects that different complex narratives have on viewers, the book addresses how films like *Donnie Darko*, *Mulholland Drive* and *Primer* strategically create complexity and confusion using the specific category of the impossible puzzle film to examine movies that use baffling paradoxes, impossible loops and unresolved ambiguities in their stories and storytelling. By looking at how these films play on our minds' blind spots, this innovative book explains their viewing effects in terms of the mental state of cognitive dissonance that they evoke.

Perplexing Plots David Bordwell, 2023-01-17 Nominated 2024 Edgar Allan Poe Award in the category of best critical biographical. Mystery Writers of America Shortlisted 2024 Agatha Awards Best Mystery Nonfiction. Malice Domestic Posthumous Winner 2023 IFCA Book Prize. International Crime Fiction Association. Narrative innovation is typically seen as the domain of the avant garde. However, techniques such as nonlinear timelines, multiple points of view and unreliable narration have long been part of American popular culture. How did forms and styles once regarded as difficult become familiar to audiences? In *Perplexing Plots*, David Bordwell reveals how crime fiction plays and films made unconventional narrative mainstream. He shows that since the nineteenth century, detective stories and suspense thrillers have allowed ambitious storytellers to experiment with narrative. Tales of crime and mystery became a training ground where audiences learned to appreciate artifice. These genres demand a sophisticated awareness of storytelling conventions; they play games with narrative form and toy with audience expectations. Bordwell examines how writers and directors have pushed, pulled and collaborated with their audiences to change popular storytelling. He explores the plot engineering of figures such as Raymond Chandler, Agatha Christie, Dashiell Hammett, Patricia Highsmith, Alfred Hitchcock, Dorothy Sayers and Quentin Tarantino, and traces how mainstream storytellers and modernist experimenters influenced one another's work. A sweeping kaleidoscopic account written in a lively conversational style, *Perplexing Plots* offers an ambitious new understanding of how movies, literature, theater and popular culture have evolved over the past century.

Bakhtin's Adventure Benjamin Paloff, 2025-05-15 A bold rereading of Mikhail Bakhtin's groundbreaking theories. A century after Mikhail Bakhtin first began formulating his now canonical reflections on freedom and literary representation, we often seem as confused as ever about the relationship between

narrative form and what it means to live ethically Focusing on the throughline of adventure in Bakhtin's thought we find a peculiar yet no less ethically urgent challenge not to imagine the literary hero as if they were a real person but to recognize how we are always imagining real people as if they were literary characters This is a provocation with far reaching consequences for how we understand ourselves each other and our situatedness in space and time In Bakhtin's *Adventure An Essay on Life without Meaning* Benjamin Paloff argues that the major aesthetic ethical and sociological threads of Bakhtin's thought intersect in his concept of adventure Reading across a wide variety of media from classic literature to contemporary film Paloff demonstrates how for Bakhtin and his interlocutors the test of human freedom is whether narrative means nothing beyond its own adventure Reframed in this light Bakhtin's most influential ideas eventness chronotope heteroglossia polyphony carnival form a cohesive model for how to maintain ethical relations in a world where we can never really know each other the way we know ourselves

Film, Lacan and the Subject of Religion Steve Nolan, 2009-09-23 In their study of religion and film religious film analysts have tended to privilege religion Uniquely this study treats the two disciplines as genuine equals by regarding both liturgy and film as representational media Steve Nolan argues that in each case subjects identify with a represented other which joins them into a narrative where they become participants in an ideological reality Finding many current approaches to religious film analysis lacking *Film Lacan and the Subject of Religion* explores the film theory other writers ignore particularly that mix of psychoanalysis Marxism and semiotics often termed Screen theory that attempts to understand how cinematic representation shapes spectator identity Using translations and commentary on Lacan not originally available to Screen theorists Nolan returns to Lacan's contribution to psychoanalytic film theory and offers a sustained application to religious practice examining several priest films and real life case study to expose the way liturgical representation shapes religious identity *Film Lacan and the Subject of Religion* proposes an interpretive strategy by which religious film analysts can develop the kind of analysis that engages with and critiques both cultural and religious practice

Hidden in Plain Sight Colin Williamson, 2015-10-22 What does it mean to describe cinematic effects as movie magic to compare filmmakers to magicians or to say that the cinema is all a trick The heyday of stage illusionism was over a century

ago so why do such performances still serve as a key reference point for understanding filmmaking especially now that so much of the cinema rests on the use of computers To answer these questions Colin Williamson situates film within a long tradition of magical practices that combine art and science involve deception and discovery and evoke two forms of wonder both awe at the illusion displayed and curiosity about how it was performed He thus considers how even as they mystify audiences cinematic illusions also inspire them to learn more about the technologies and techniques behind moving images Tracing the overlaps between the worlds of magic and filmmaking *Hidden in Plain Sight* examines how professional illusionists and their tricks have been represented onscreen while also considering stage magicians who have stepped behind the camera from Georges M li s to Ricky Jay Williamson offers an insightful wide ranging investigation of how the cinema has functioned as a device of wonder for more than a century while also exploring how several key filmmakers from Orson Welles to Christopher Nolan and Martin Scorsese employ the rhetoric of magic Examining pre cinematic visual culture animation nonfiction film and the digital trickery of today s CGI spectacles *Hidden in Plain Sight* provides an eye opening look at the powerful ways that magic has shaped our modes of perception and our experiences of the cinema **The Nolan Variations**
