Goodman, 2020-12-07 The COVID-19 pandemic, Obamacare, The Great Recession, The dot-com bust, The early 90s recession Every decade or so a disaster hits the United States and reminds us that many American families live one calamity away from financial ruin But what if there were a better way to help families protect themselves from life's risks And what if that way did not require bloated government bureaucracies, increased taxes and runaway spending and debt Fortunately, author, economist, policy entrepreneur and Independent Institute Senior Fellow John C. Goodman Ph.D. has forged just such a path In *New Way to Care: Social Protections That Put Families First*, Dr. Goodman offers a bold but practical strategy for giving Americans more control and security over their own finances and destiny while still promoting at far less expense the vital social goals that gave rise to well-intended but failing government safety net programs Here are just a few of the life risks to which Dr. Goodman, the Father of Health Savings Accounts, according to the Wall Street Journal, presents solutions Growing too old and outliving one's assets Dying too young and leaving dependent family members without resources Becoming disabled and facing financial catastrophe Suffering a major health event and being unable to afford needed medical care Becoming unemployed and finding no market for one's skills In *New Way to Care*

Dr Goodman invites us to envision smartly crafted social protections that better empower and serve the nation's families harmonize individual and societal interests foster personal responsibility and government accountability bridge the partisan divide over social spending and eliminate the risk that America's safety net expenditures will drive the U.S. economy over a fiscal cliff The debate in America over social insurance will never be the same

**Ownership and Governance of Companies** Jonathan Michie,Vishnu Padayachee,2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics
