John Bunyan,Thomas Gray,John Warner Barber,William Holmes,Henry Howe,2024-04-19 Reprint of the original first published in 1881 Meditations on the Peaks Julius Evola,1998-02-01 Evola articulates the close relationship between the physical rigors of mountain climbing and the ascent of the initiate toward self transcendence Julius Evola a leading exponent of esoteric thought was also an ardent mountain climber who personally scaled the peaks of the Tyrols Alps and Dolomites For Evola the physical conquest of a mountain with all the courage self transcendence and mental lucidity that it entails becomes an inseparable and complementary part of spiritual awakening It is no coincidence that many ancient cultures chose mountains as the abodes of their gods and considered the rigorous ascent of peaks as the task of heroes and initiates In

modern times which tend to suffocate the heroic with naked self interest the mountain still forms part of the profound dimension of spirit where the soul finds within itself more than what it thought itself to be In *Meditations on the Peaks* Evola combines recollections of his own experiences with reflections on other inspirational men and women who shared his view of the transcendent greatness of mountains
