## Student Exploration: Air Track

**Vocabulary:** air track, approach velocity, conservation of energy, conservation of momentum, elasticity, kinetic energy, momentum, separation velocity, velocity

**Prior Knowledge Questions** (Do these BEFORE using the Gizmo.)

Imagine going to a bowling alley with a bowling ball and a ping pong ball. 1. Why is a bowling ball better for knocking down pins than a ping pong ball? The ping pong ball is smaller and more hollow than a bowling ball

2. Which do you think would knock down more pins, a bowling ball moving 10 meters per second or a bowling ball moving 10 centimeters per second? The bowling ball traveling at 10 meters per second

3. What two factors seem to most affect the amount of damage that occurs in a collision? The mass and speed acting on an object determines the damage of the collision

### Gizmo Warm-up

An **air track** is a device that helps scientists study motion. Air comes out of holes in the track, allowing the gliders to move with minimal friction.

1. On the *Air Track* Gizmo, click **Play** (  ) to view a collision between the two gliders. What do you see? After they hit each other they bounce off one another

2. Click **Reset** (  ). The **velocity** ( $v$ ) of an object describes its speed and direction. The velocity of each glider is indicated next to the  $v_1$  and  $v_2$  sliders. Click **Play**, and then click **Pause** (  ) just before the collision.

A. What is the velocity of **Glider 1**? 5.0 m/s

B. In which direction does **Glider 1** move? It moves right

### **Piaget's Genetic Epistemology for Mathematics Education Research** Paul Christian

Dawkins, Amy J. Hackenberg, Anderson Norton, 2024-01-02 The book provides an entry point for graduate students and other scholars interested in using the constructs of Piaget's genetic epistemology in mathematics education research Constructs comprising genetic epistemology form the basis for some of the most well developed theoretical frameworks available for characterizing learning particularly in mathematics The depth and complexity of Piaget's work can make it challenging to find adequate entry points for learners not least because it requires a reorientation regarding the nature of mathematical knowledge itself This volume gathers leading scholars to help address that challenge The main section of the book presents key Piagetian constructs for mathematics education research such as schemes and operations figurative and operative thought images and meanings and decentering The chapters that discuss these constructs include examples from research and address how these constructs can be used in research There are two chapters on various types of reflective abstraction

because this construct is Piaget's primary tool for characterizing the advancement of knowledge. The later sections of the book contain commentaries reflecting on the contributions of the body of theory developed in the first section. They connect genetic epistemology to current research domains such as equity and the latest in educational psychology. Finally, the book closes with short chapters portraying how scholars are using these tools in specific arenas of mathematics education research including in special education, early childhood education, and statistics education. **Intelligent Tutoring Systems** Hugh Burns, Carol A. Luckhardt, James W. Parlett, Carol L. Redfield, 2014-01-14. This is a collection of essays on issues related to the evolutionary design and the practical future of intelligent tutoring systems. Following in the tradition of *Foundations of Intelligent Tutoring Systems* and *Intelligent Tutoring Systems: Lessons Learned*, this volume examines some of the visions and near-term issues that have been further explored and better defined since those groundbreaking books first appeared. Questions addressed in this volume include: How can knowledge bases generate explanations? Will case-based reasoning techniques be worth pursuing in the ITS framework? Will high performance skills be successfully taught in an ITS design? Are there dimensions of ITS design which the research laboratories are ignoring and ignoring at the customer's peril? Of particular importance to those engaged in research and development, this book will be of value to all who wish to apprise themselves of the advances being made in the rapidly evolving field of intelligent tutoring systems. Proceedings of the 2nd International Conference on Internet, Education and Information Technology (IEIT 2022)

Ahmed El-Hashash, Fonny Dameaty, Hutagalung, Ahmed Said Ghonim, Kun Zhang, 2023-02-10. This is an open access book. As a leading role in the global megatrend of scientific innovation, China has been creating a more and more open environment for scientific innovation, increasing the depth and breadth of academic cooperation and building a community of innovation that benefits all. These endeavors have made new contributions to globalization and creating a community of shared future. To adapt to this changing world and China's fast development in this new area, the 2nd International Conference on Internet Education and Information Technology (IEIT 2022) is to be held in April 15-17, 2022. This conference takes bringing together global wisdom in scientific innovation to promote high quality development as the theme and focuses on research fields including information technology, education, big data, and Internet. This conference aims to expand channels of international academic exchange in science and technology, build a sharing platform of academic resources, promote scientific innovation on the global scale, improve academic cooperation between China and the outside world. It also aims to encourage exchange of information on research frontiers in different fields, connect the most advanced academic resources in China and abroad.
