**Memory Traces** Silke Arnold-de Simine,2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post unification Germany German unification has put the post war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self perception of literary authors as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany s past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and

**Generational Shifts in Contemporary German Culture** Laurel Cohen-Pfister, Susanne Vees-Gulani, 2010 The concept of the generation in today's German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and unexpected continuities Moreover as younger artists reframe recent history older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period Contributors Svea Br unert Laurel Cohen Pfister Friederike Eigler Thomas C Fox Katharina Gerstenberger Erin McGlothlin Brad Prager Ilka Rasch Susanne Rinner Caroline Schaumann Maria Stehle Reinhild Steingr ver Susanne Vees Gulani Laurel Cohen Pfister is Associate Professor of German at Gettysburg College and Susanne Vees

A History of Women's Writing in Germany, Austria and Switzerland Jo Catling,2000-03-23 This volume makes the wide ranging work of German women writers visible to a wider audience It is the first work in English to provide a chronological introduction to and overview of women s writing in German speaking countries from the Middle Ages to the present day Extensive guides to further reading and a bibliographical guide to the work of more than 400 women writers form an integral part of the volume which will be indispensable for students and scholars of German literature and all those interested in women s and gender studies

**Airman's Guide** ,1948      Ambivalent Literary Farewells to the German Democratic Republic John David Pizer,2021-08-02 This study reverses the question implicit in title of Christa Wolf s now canonical 1990 novella *Was bleibt* What remains looking instead at what was lost during the process of German reunification It argues that in their work during and after the Wende most literary authors from both East and West Germany responded ambivalently to the reunification Many felt on the one hand a keen sense of loss as the GDR dissolved and an expanded Federal Republic summarily absorbed former Eastern Germany They mourned the ideals of democratic socialism tolerance and internationalism that the GDR had held dear as well as the country s rich cultural life On the other hand however they recognized that the GDR was a fundamentally corrupt surveillance state whose industry weighed heavily on the environment while failing to buoy the country s economy By looking at works by some of the most important authors from either side of the border this study shows that those who unequivocally embraced the reunification were clearly in the minority

After the Stasi Annie Ring,2017-03-23 Why did so many citizens of the GDR agree to collaborate with the Stasi Reading works of literature since German unification in the light of previously unseen files from the archives of the Stasi After the Stasi uncovers how writers to the present day have explored collaboration as a challenge to the sovereignty of subjectivity Annie Ring here interweaves close analysis of literary fiction and life writing by former Stasi spies and victims with documents from the archive new readings from literary modernism and cultural theories of the self In its pursuit of the strange power of the Stasi the book introduces an archetypal character in the writing of German unification one who is not sovereign over her or his actions but instead is compelled by an imperative to collaborate an imperative that persists in new forms in the post Cold War age Ring s study identifies a monumental historical shift after 1989 from a collaboration that took place in concert with others in a manner that could be recorded in the archive to the more isolated and ultimately less accountable complicities of the capitalist present While considering this shift in the most recent texts by East German writers Ring provocatively suggests that their accounts of collaboration under the Stasi and of the less than sovereign subjectivity to which it attests remain urgent for understanding the complicities to which we continue to consent in the present day
