Doc's Cookbook Richard W. Soderberg, 2019-09-16 I came from a Scandinavian culture in Northwestern Wisconsin My mother was a lousy cook Seems that the only thing she ever made was hot dish which was a casserole based on cream of mushroom soup Mom s usually featured celery and ground moose Dad s annual male bonding vacation was always to Northern Ontario in September By the time the dead moose made it back home hot dish was about all they could do with it Mom once sent me a box containing index cards of all her hot dish recipes It was a joke She was a funny lady None of those recipes made it to this book I still detest cooked celery Grandma on the other hand who lived just down the road knew how to feed a family and kept us from starving until we started school and were introduced to the delights of Mrs Hendrickson s gourmet school lunch I d never seen much less experienced the goodness of such items as broccoli and cauliflower Growing up in a culinary deprived culture contributed to my interest in cooking Another is my love for the outdoors and the joys of preparing and consuming priceless gifts from nature I collected and perfected the recipes provided here over many years of

experimentation I am pleased to share them with you

Advances in Medical Discourse Analysis Maurizio

Gotti, Françoise Salager-Meyer, 2006 The focus of this volume is on medical discourse a domain of language which deserves closer scrutiny by academics as well as practitioners due to its increasing relevance and pervasiveness in modern society Despite the wealth of publications dealing with specialized or academic discourse and its rhetoric few of these are devoted specifically to medical discourse This book seeks to redress the balance by bringing together a number of studies that bear witness to the widespread interest in medical texts shown by linguists and professional communities around the world The volume is divided into two main parts the first targets medical discourse in its spoken dimension while the second contains various analyses of written texts The theoretical perspectives and individual case studies presented here reflect the wide range of methodological approaches and theoretical issues that characterise current research in the field
