Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state Law Policy and Reproductive Autonomy examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive

choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform

Moving for Marriage Shruti Chaudhry,2021-10-01 Shortlisted for the 2023 BASAS Book Prize presented by British Association for South Asian Studies Based on ethnographic fieldwork in a village in the north Indian state of Uttar Pradesh Moving for Marriage compares the lived experiences of women in regional marriages that conform to caste and community norms within a relatively short distance with women in cross regional marriages that traverse caste linguistic and state boundaries and entail long distance migration within India By demonstrating how geographic distance and regional origins make a difference in these women s experiences Shruti Chaudhry challenges stereotypes and moral panics about cross regional brides who are brought from far away Indeed Moving for Marriage highlights the ways in which the post marital experiences of both categories of wives in this study their work and social relationships their sexual lives and childbearing decisions and their ability to access support in everyday contexts and in the event of marital distress are shaped by factors such as caste class poverty religion and stage in the life course In focusing on this Global South context Chaudhry makes novel arguments about the development of intimacy within marriages that are inherently unequal and even violent thereby offering an alternative to Euro American understandings of intimacy and women s agency

Johnson,2022-12-22 In the thirty five years since China instituted its One Child Policy 120 000 children mostly girls have left China through international adoption including 85 000 to the United States It s generally assumed that this diaspora is the result of China s approach to population control but there is also the underlying belief that the majority of adoptees are daughters because the One Child Policy often collides with the traditional preference for a son While there is some truth to this it does not tell the full story a story with deep personal resonance to Kay Ann Johnson a China scholar and mother to an adopted Chinese daughter Johnson spent years talking with the Chinese parents driven to relinquish their daughters during the brutal birth planning campaigns of the 1990s and early 2000s and with China s Hidden Children she paints a startlingly different picture The decision to give up a daughter she shows is not a facile one but one almost always fraught with grief and dictated by fear Were it not for the constant threat of punishment for breaching the country s stringent birth planning policies most Chinese parents would have raised their daughters despite the cultural preference for sons With clear understanding and compassion for the families Johnson describes their desperate efforts to conceal the birth of second or third daughters from the authorities As the Chinese government cracked down on those caught concealing an out of plan child strategies for surrendering children changed from arranging adoptions or sending them to live with rural family to secret placement at carefully chosen doorsteps and finally abandonment in public places In the twenty first century China s so called abandoned children have increasingly become stolen children as declining fertility rates have left the dwindling number of children available for adoption more vulnerable to child trafficking In addition government seizures of locally but illegally adopted children and children hidden within their birth families mean that even legal adopters have unknowingly

adopted children taken from parents and sent to orphanages The image of the unwanted daughter remains commonplace in Western conceptions of China With China's Hidden Children Johnson reveals the complex web of love secrecy and pain woven in the coerced decision to give one's child up for adoption and the profound negative impact China's birth planning campaigns have on Chinese families
