Similarities Between Nsfas And Loan:

From School to Higher Education? Michael Cosser, Jacques Du Toit, 2002 This substantive report is essential reading for those involved in higher education planning and policy making *Student Loan Schemes*, 2009 **Transforming Universities in South Africa**, 2020-08-31 The idea of transformation in higher education underpins all policy documents academic literature and on going debates in South Africa Transforming Universities in South Africa Pathways to Higher Education Reform responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa's higher education stands across the continent and globally particularly within the country's efforts to overcome decades of socio economic imbalances It addresses the question of whether South Africa's transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume's ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage *Umrabulo*, 2001 *British Education Index*, 2003 *Universities, Employability and Human Development* Melanie Walker, Samuel Fongwa, 2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability *Mind the Gap* Tobias Berg, 2016 We analyze pricing differences between U S and European syndicated loans over the 1992 2014 period We explicitly distinguish credit lines from term loans For credit lines U S borrowers pay significantly higher spreads but lower fees resulting in similar total costs of borrowing in both markets Credit line usage is more cyclical in the U S which provides a rationale for the pricing structure difference For term loans we analyze the channels of the cross country loan price differential and document the importance of the composition of term loan borrowers and the loan supply by institutional investors and foreign banks
