Similarities Between Bursaries:

Achieving Equity and Quality in Higher Education Mahsood Shah, Jade McKay, 2018-07-05 Across the world higher education is witnessing exponential growth in both student participation and types of educational providers. One key phenomenon of this growth is an increase in student diversity; governments are widening access to higher education for students from traditionally underrepresented groups. However, this raises questions about whether this rapid growth may in fact compromise academic quality. This book presents case studies of how higher education institutions in diverse countries are maintaining academic excellence while increasing the access and participation of students from historically underrepresented backgrounds. Including case studies spanning four continents, the authors and editors examine whether increasing widening participation positively impacts upon academic quality. This volume will be of interest and value to students and scholars of global higher education, representation and participation in education, and quality in higher education.

The Future of Catholic Biblical Scholarship Luke Timothy Johnson, William S. Kurz, 2002 Luke Timothy Johnson and William Kurz are Roman Catholic New Testament scholars who think that the apparent good health of biblical scholarship in America is deceptive. Despite its huge production of learning, Catholic scholarship has lost some of its soul because of its distance from the life and concerns of living faith communities. In this volume, the authors open a conversation with others in the church concerning a future Catholic biblical scholarship that maintains the freedom of critical inquiry but within a living loyalty to tradition. Looking not to criticize but to strengthen, the authors model the type of dialogue that is needed today. Johnson first reviews the current state of Catholic biblical scholarship and then points out important lessons from throughout the tradition of interpretation. He calls for imagining the world that Scripture imagines as the presupposition for the organic use of the Bible in theology. Kurz responds to Johnson's chapters and then offers his own approach to biblical interpretation, showing how literary analysis of the Gospel of John can be brought into conversation with the Nicene Creed, with recent debates in ethics, and with the practices of the church. After Johnson responds to Kurz, the authors jointly conclude by addressing a series of questions concerning hard issues now facing Catholic biblical scholarship.
