A. Bird,J. M. H. Moll,A. Rushton,2013-11-11 This book is about the drugs used in the treatment and management of rheumatic disorders The term therapeutics used in the title is intended to mirror the relevance of drugs in the widest sense of the word Thus general principles underlying pharmaceutical and pharmacological study have been included together with more clinical matters concerned with applying specific rheumatic problems The need for another work on rheumatological drugs in itself as opposed to the different approach intended was prompted by the ever continuing and bewildering plethora of antirheumatic drugs flooding the market at present We believe that such a burgeoning of new preparations is welcome in an era when in general there are still no cures available Moreover we also feel that a continued update of this rapidly advancing field is essential not only for its own sake but also to place it in perspective with itself and with neighbouring fields Surgery in and around the Brain Stem and the Third Ventricle M. Samii,2012-12-06 It is of course a real challenge to summon together an International Sym posium in and around the Brain Stem and Third Ventricle Up to this mo ment the various experiences and papers on this subject were distributed throughout the world literature making it very difficult for someone in terested in the matter to have access

to the actual state of knowledge Therefore I believe such a meeting was long overdue and is a considerable attempt to open closed doors for present and future ambitious neurosurgical activities After succeeding in previous symposiums of similar interest in Hannover it was obvious that Prof Madjid Samii and his coworkers took the initiative of organizing such a meeting bringing together in the pure sense of the word Neurosurgeons with Anatomists Neurologists Neurophysiologists Neuroradiologists ENT Maxillofacial Stereotactic and Radiosurgeons as well as other colleagues One contribution after the other followed from the basic sciences up to the operative management considering very new and actual concepts Through the application of new microsurgical techniques and the incorporation of new understanding for the many problems afflicting the midline of the eNS and based on a growing closer cooperation between the various disciplines a wide field has opened up which concerns us all
