The Blind Spots of Public Bureaucracy and the Politics of Non-Coordination Tobias Bach, Kai Wegrich, 2018-05-29 How to better coordinate policies and public services across public sector organizations has been a major topic of public administration research for decades However few attempts have been made to connect these concerns with the growing body of research on biases and blind spots in decision making This book attempts to make that connection It explores how day to day decision making in public sector organizations is subject to different types of organizational attention biases that may lead to a variety of coordination problems in and between organizations and sometimes also to major blunders and disasters The contributions address those biases and their effects for various types of public organizations in different policy sectors and national contexts In particular it elaborates on blind spots or not seeing the not seeing and different forms of bureaucratic politics as theoretical explanations for seemingly irrational organizational behaviour The book's theoretical tools and empirical insights address conditions for effective coordination and problem solving by public bureaucracies using an organizational perspective

The Problem of the Color[blind] Brandi Wilkins Catanese, 2011-06-07 Catanese's beautifully written and cogently argued book addresses one of the most persistent sociopolitical questions in contemporary culture She suggests that it is performance and the difference it makes that complicates the terms by which we can even understand multicultural and colorblind concepts A tremendously illuminating study that promises to break new ground in the fields of theatre and performance studies African American studies feminist theory cultural studies and film and television studies Daphne Brooks Princeton University Adds immeasurably to the ways in which we can understand the contradictory aspects of racial discourse and performance as they have emerged during the last two decades An ambitious smart and fascinating book Jennifer DeVere Brody Duke University Are we a multicultural nation or a colorblind one The Problem of the Color blind examines this vexed question in American culture by focusing on black performance in theater film and television The practice of colorblind casting choosing actors without regard to race

assumes a performing body that is somehow race neutral But where exactly is race neutrality located in the eyes of the spectator in the body of the performer in the medium of the performance In analyzing and theorizing such questions Brandi Wilkins Catanese explores a range of engaging and provocative subjects including the infamous debate between playwright August Wilson and drama critic Robert Brustein the film career of Denzel Washington Suzan Lori Parks s play *Venus* the phenomenon of postblackness as represented in the Studio Museum in Harlem s *Freestyle* exhibition the performer Ice Cube s transformation from icon of gangsta rap to family movie star and the controversial reality television series *Black White* Concluding that ideologies of transcendence are ahistorical and therefore unenforceable Catanese advances the concept of racial transgression a process of acknowledging rather than ignoring the racialized histories of performance as her chapters move between readings of dramatic texts films popular culture and debates in critical race theory and the culture wars

Disability & the Politics of Education Susan Lynn Gabel, Scot Danforth, 2008 *Disability and the Politics of Education* An International Reader is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world s disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches

The Price of Progressive Politics Rose Ernst, 2012-07-23 Social justice

activists in the United States face an increasingly difficult task how do they fight policies based on damaging images of race class and gender identities in an era of colorblind racism Through the voices of women activists in the welfare rights movement across the United States *The Price of Progressive Politics* exposes the contemporary reality of welfare rights politics revealing how the language of colorblind racism undermines this multiracial movement Rose Ernst argues that although many activists are well meaning and truly committed they nonetheless find themselves reproducing many of the same racial and gender biases that they are trying to fight against Through forty nine in depth interviews with activists in eight organizations across the United States Ernst presents an intersectional analysis of how these activists understand the complexities of race class and gender and how such understandings have affected their approach to their grassroots work The vibrant stories of these welfare rights activists from around the country reveal the volatile issues of race and class that underlie the deep complexities and contradictions of grassroots organizing and the tensions which are often heightened by the language of color blind racism Engaging and accessible *The Price of Progressive Politics* offers a refreshing examination of how those working for change grapple with shifting racial dynamics in the United States arguing that organizations that fail to develop a consciousness that reflects the reality of multiple marginalized identities ultimately reproduce the societal dynamics they seek to change

African Literature and the Politics of Culture James Tar Tsaaio, 2013-11-01 This book essentially negotiates African literature as a veritable site of artistic and cultural production and situates it within the dynamic of postcolonial cultural politics It critically evaluates African literature as a contour of cultural contestation with the imperial politics of knowledge production about others and as an ideological strategy for knowing them The book's main contribution to the critical discourse on African literature and culture inheres in the fact that politics constitutes the enduring concern of society as it re shapes and over determines discourses which have continued to remain crucial to societal engineering It however imagines the discursive existence as necessary for the evolving of a dynamic African literary tradition with an abiding fidelity to the verities of history The book is useful for literary scholars historians critics experts and students of postcolonial cultural studies as well as general readership interested in African studies

Arendt, Eichmann and the Politics of the Past Tuija Parvikko, 2021-12-16 Arendt Eichmann and the Politics of the Past offers a critical analysis of the original American debate over Hannah Arendt's report of the trial of Adolf Eichmann First published in 2008 Tuija Parvikko's book discusses both the campaign against Arendt organised by American Zionist organisations and the controversy Arendt's report caused within American Jewish intellectual circles Parvikko's analysis carefully draws from the historical background of the report discussing Arendt's early studies of Zionism and her critique of the Jewish state The volume also gives an account of

Eichmann's capture in Argentina and the reception of the report among legal scholars and the world press. This edition includes a new prologue in which Parvikko reflects on her own account in connection to recent academic discussions on the controversy. The author's analysis also covers contributions that have attempted to follow Arendt's notion of thinking without banisters. With them Parvikko engages in debate about going beyond Arendt's theoretical reflections on cohabitation sharing the world and discussing the new political evils of the present world without pre-given norms and patterns of thought. *The Politics of Canonicity* Michael Gluzman, 2002-12-30. This book explores the complex relations among the hegemonic triad of territory, nation, and national literature that have characterized the modern European nation-state. In the case of Hebrew literature, this triad was unattainable and its components fiercely contested; hence the literary field itself was responsible for shaping the nation preceding the nation-state itself. *The Politics of Blood* Anne-Maree Farrell, 2012-05-24. How best to manage risk involving multi-valued human biological materials is the overarching theme of this book, which draws on the sourcing and supply of blood as a case study. Blood has ethical, social, scientific, and commercial value. This multi-valuing process presents challenges in terms of managing risk, therefore making it ultimately a matter for political responsibility. This is highlighted through an examination of the circumstances that led to HIV blood contamination episodes in the US, England, and France, as well as their consequences. The roles of scientific expertise and innovation in managing risks to the blood system are also analysed, as is the increased use of precautionary and legal strategies in the post-HIV blood contamination era. Finally, consideration is given to a range of policy and legal strategies that should underpin effective risk governance involving multi-valued human biological materials. **The Politics and Culture of Honour in Britain and Ireland, 1541-1641** Brendan Kane, 2010-02-25. Exploring early modern concepts of honour, this book brings a cultural perspective to our understanding of English imperialism in Ireland. **Why the Politics of Breastfeeding Matter** Gabrielle Palmer, 2016-11-03. *The Politics of Breastfeeding*, first published in 1988, remains a hugely important book. It exposes infant feeding as one of the most important global public health issues of our time and describes how big business and vested interests influence the intimate relationship between mothers and their babies to the detriment of all rich or poor in the West or in the developing world. In *Why the Politics of Breastfeeding Matter*, the central ideas of *The Politics of Breastfeeding* are distilled into a concise form, making it the perfect introduction to understanding the complex forces that govern what many think of as a simple choice to breastfeed or not. **Politics for People Who Hate Politics** Denise Grace Gitsham, 2023-11-14. Politics that unite rather than divide. Politics can be infuriating. From unjust policies to unholy politicians, there are justifiable reasons to be upset or walk away altogether. Yet we must stay involved if we are to protect and sustain our fragile nation from the divisions that threaten it. With more than two decades of experience working in the highest levels of government, insider Denise Grace Gitsham offers a remedy to America's dark political reality.
