Hoop Crazy Dennis Gildea, 2013-11-01 Clair Bee 1896 1983 was a hugely successful basketball coach at Rider College and Long Island University with a 412 and 87 record before his career was derailed in 1951 by a point shaving scandal In the trial that sent his star player Sherman White to prison the judge excoriated Bee for creating a morally lax culture that contributed to his players involvement with gambling To a certain extent Bee agreed with the judge's scolding concluding that coaches himself included had become so driven to succeed on the court that they had lost sight of the educational role sports should play His coaching career effectively over

Bee launched an effort to reform the ills he saw in college sports and he did so in the pages of the Chip Hilton novels for young readers. He began the series in 1948 but it was the post scandal books that he used as teaching tools. The books mirrored some of the events of the gambling scandal and were Bee's attempt to reform the problems plaguing college sports. He used his fiction to posit a better sports world that he hoped his young readers would construct and inhabit. The Chip Hilton books were extremely popular and have become a classic series with over two million copies sold to date. *Hoop Crazy* is the fascinating story of Clair Bee and his star character Chip Hilton and the ways in which their lives real and fictional were intertwined.

Out of Ashes Konrad H. Jarausch, 2016-08-29 A sweeping history of twentieth century Europe that examines its unprecedented destruction and abiding promise. A sweeping history of twentieth century Europe. *Out of Ashes* tells the story of an era of unparalleled violence and barbarity yet also of humanity, prosperity and promise. Konrad Jarausch describes how the European nations emerged from the nineteenth century with high hopes for continued material progress and proud of their imperial command over the globe only to become embroiled in the bloodshed of World War I which brought an end to their optimism and gave rise to competing democratic, communist and fascist ideologies. He shows how the 1920s witnessed renewed hope and a flourishing of modernist art and literature but how the decade ended in economic collapse and gave rise to a second more devastating world war and genocide on an unprecedented scale. Jarausch further explores how Western Europe surprisingly recovered due to American help and political integration. Finally he examines how the Cold War pushed the divided continent to the brink of nuclear annihilation and how the unforeseen triumph of liberal capitalism came to be threatened by Islamic fundamentalism, global economic crisis and an uncertain future. A gripping narrative. *Out of Ashes* explores the paradox of the European encounter with modernity in the twentieth century, shedding new light on why it led to cataclysm, inhumanity and self destruction but also social justice, democracy and peace.

The Social Safety Net Nora Loreto, 2024-08-13 THE HILL TIMES TOP 100 BOOKS OF 2024 Canada's social safety net is fraying. Why does it feel like everything is collapsing? Canada is at a crossroads. Social services and politics have been transformed to serve market economies while Canadians struggle to pay rent, buy food and find a stable job that pays well enough to cover daily costs. Everywhere we look things are falling apart but there's still time to reverse the decline. *The Social Safety Net*, the first book in the Canada in Decline series, tracks the forty year attack on Canada's welfare state. As neoliberalism has matured, Canadians have seen the impact of these attacks: unreliable healthcare, crises in education and social services, and a society that feels like it is losing cohesion. This series tells the story of Canada's untenable status quo and the forces that have led us to where we are today. It outlines the choices we need to make to fix all that is crumbling around us as well as the possible paths forward.
