Congress. House. Committee on Natural Resources. Subcommittee on Oversight and Investigations,1994 The World Turned Upside Down? Greg Albo,Leo Panitch,2018-12-24 A World Turned Upside Down poses two overarching questions for the new period opened by the Trump election and the continued growth of right wing nationalisms Is there an unwinding of neoliberal globalization taking place or will globalization continue to deepen but still deny the free cross border movement of labor Would such an unwinding entail an overall shift in power and accumulation to specific regions of the Global South that might overturn the current world order and foster the disintegration of the varied regional blocs that have formed These questions are addressed through a series of essays that carefully map the national class racial and gender dimensions of the state capitalism and progressive forces today Sober assessment is crucial for the left to gain its political bearings in this trying period and the uncertainties that lie ahead *Meat* ,1947 Some vols include Proceedings of the annual meeting of the American Meat Packers Institute Proceedings of the annual meeting of the National Independent Meat Packers Association **British Medical Journal** ,1890 **Dictionary of National Biography** Leslie Stephen,1892 **Congressional Record** United States. Patton, 2019-11-15 Lockheed has been one of American's largest corporations and most important defense contractors from World War II to the present day since 1995 as part of Lockheed Martin Aeronautics Company. During the postwar era its executives enacted complicated business responses to black demands for equality. Based on the papers of a personnel executive, the memoir of an African American employee, interviews, and company publications, this narrative history offers a unique inside perspective on the evolution of equal employment and affirmative action policies at Lockheed Aircraft's massive Georgia plant from the early 1950s through the early 1980s. Randall L. Patton provides a rare, perhaps unique, account of African American struggle and management response set within the context of the regional and national struggles for civil rights. The book describes the complex interplay of black protest, federal policy, and management action in a crucial space in the national economy and within the South, contributing to business history, policy history, labor history, and civil rights history.
