Authenticity and the Public Literary Self Sreedhevi Iyer,2024-02-29 This is the first book length study on how authors of color present themselves in public literary discourse The study utilizes data obtained from

and around exemplary empirical case study participants Junot Diaz Madeleine Thien and Mohsin Hamid Relevant data includes the case study authors Twitter usage and the impact of the digital sphere in author self presentation Dr Iyer employs a combined theoretical framework of discourse analysis and interactional sociolinguistics with an awareness of literary and creative writing studies The theoretical approach uses four metapragmatic stereotypes regarding what constitutes an authentic author The theoretical approach and metapragmatic stereotype form an evaluative framework that can be applied on diverse data to replicate findings The study originated from the author's own exposure to prevailing literary discourse through public engagements as a writer She became aware of the problematic nature of an author's public self presentation with a requirement to be yourself Each celebrity author of color faces a paradoxical positioning within literary discourse as a result of that requirement Through her study Dr Iyer sought to discover how authors of color negotiate themselves in public spheres including digital social media platforms in order to accomplish authenticity discursively This book is ideal for learners and practitioners in creative writing who are seeking strategies for self presentation as published authors It is also valuable for researchers in discourse analysis including literary discourse and social media discourse providing an empirical means of evaluating authenticity as understood in contemporary times
