

The first Roman army

The legend about Remus and Romulus as the founders of Rome, dates the creation of the city to 753 B.C. However, historians state that it was somewhere in the 7th century B.C., but archaeological findings suggest that the city would have been created in the 10th century B.C. Beyond the date of its origin, it is clear that a group of Latins founded a settlement on Palatine Hill, near the Tiber river, a strategic spot for commerce in the area that, over the time, would spread to the six surrounding hills. First it was a village, then a city and finally, the most important Empire in history. The army played a key role for that to happen.

The first times

After being released from Etruscan rule, Rome created its own army. The citizens were mobilized in case of war and fought in phalanxes. The aim of this army was to defend the city from its neighbors' attacks: Etruscans, Sabines, Latins and Samnites among others. During the war with this last group (500 B.C.) there was an important tactical change: the phalanx formation was substituted by the maniples (small formations). This strategy was conceived against the Greeks, but failed against the Carthaginians in the Second Punic War. This is why they improved it even more: the maniples were distributed in three lines (triplex acies), as they obtained more maneuverability and tactical flexibility.

Rome Neil Faulkner,2013-09-13 The Roman Empire is widely admired as a model of civilisation In this compelling new study Neil Faulkner argues that in fact it was nothing more than a ruthless system of robbery and violence War was used to enrich the state the imperial ruling classes and favoured client groups In the process millions of people were killed or enslaved Within the empire the landowning elite creamed off the wealth of the countryside to pay taxes to the state and fund the towns and villas where they lived The masses of people slaves serfs and poor peasants were victims of a grand exploitation that made the empire possible This system riddled with tension and latent conflict contained the seeds of its own eventual collapse
