**Phenomenology and the Realization of Philosophy** Bryan A. Smyth,2013-12-19 Bringing to light the essential philosophical role of Marxism within Merleau Ponty s reinterpretation of transcendental phenomenology this book shows that the realization of this project hinges methodologically upon a renewed conception of the proletariat qua universal class

specifically that it rests upon a humanist myth of incarnation which substantiated by Merleau Ponty's notion of heroism locates an objective historical purposiveness in the habituated organism of the modern subject. Foregrounding the phenomenological priority of history over corporeality in this way Smyth's analysis recovers the militant character of Merleau Ponty's existential phenomenology. It thus sheds critical new light on his early thought and challenges some of the main parameters of existing scholarship by disclosing the intrinsic normativity of his basic methodological commitments.

Traditionally, however, philosophical discussions have tended to approach it through the lens of warfare and/or limit it to physical forms. This changed in the twentieth century as the nature and meaning of violence itself became a conceptual problem. Guided by the contention that Walter Benjamin's famous 1921 Critique of Violence essay inaugurated this turn to an explicit questioning of violence, this collection brings together an international array of scholars to engage with how subsequent thinkers Agamben, Arendt, Benjamin, Butler, Castoriadis, Derrida, Fanon, Gramsci, Merleau-Ponty, Sartre and Schmitt grappled with the meaning and place of violence. The aim is not to reduce these multiple responses to a singular one but to highlight the heterogeneous ways in which the concept has been inquired into and the manifold meanings of it that have resulted. To this end, each chapter focuses on a different approach or thinker within twentieth and twenty-first century European philosophy, with many of them tackling the issue through the mediation of other topics and disciplines including biopolitics, epistemology, ethics, culture, law, politics and psychoanalysis. As such, the volume will be an invaluable resource for those interested in Critical Theory, Cultural Studies,
