themselves and pass their costs onto others The problems are deep and pervasive most academic marketing and advertising is semi fraudulent To justify their own pay raises and higher budgets administrators hire expensive and unnecessary staff Faculty exploit students for tuition dollars through gen ed requirements Students hardly learn anything and cheating is pervasive At every level academics disguise their pursuit of self interest with high faluting moral language Marshaling an array of data Brennan and Magness expose many of the ethical failings of academia and in turn reshape our understanding of how such high power institutions run their business Everyone knows academia is dysfunctional Brennan and Magness show the problems are worse than anyone realized Academics have only themselves to blame
