A Poetics of Orthodoxy Benjamin P. Myers, 2020-12-17 What makes one poem better than another Do Christians have an obligation to strive for excellence in the arts While orthodox Christians are generally quick to affirm the existence of absolute truth and absolute goodness even many within the church fall prey to the postmodern delusion that beauty is in the eye of the beholder This book argues that Christian doctrine in fact gives us a solid basis on which to make aesthetic judgments about poetry in particular and about the arts more generally The faith once and for all delivered unto the saints is remarkable in its combined emphasis on embodied particularity and meaningful transcendence This unique combination makes it the perfect starting place for art that speaks to who we are as creatures made for eternity **New Ideas in the Writing Arts** Graeme Harper, 2013-08-19 New Ideas in the Writing Arts has come about because recent changes taking place in educational settings have influenced the ways in which learners and teachers are exploring Creative Writing The worldwide growth of Creative Writing as a formal subject of study in universities and colleges has generated explorations that appear now to be at the tip of an even greater range of explorations that promise to be undertaken in coming years When titling this book the intention was to say that we should consider what might currently be new what might be explored what might be introduced to a writer who has not thought of investigating certain aspects of Creative Writing or undertaking Creative Writing in a certain way Such freshness can often produce a development in a writer s own work Our 21st century development of research in Creative Writing undertaken by creative writers through writing practice and through a critical engagement with Creative Writing that begins in writing practice is already unearthing new ways of thinking about Creative Writing and new ways of undertaking it too New Ideas in the Writing Arts presents explorations of Creative Writing fresh from explorers of Creative Writing who have incorporated into their work ideas discovered in creative

practice and ideas explored critically because of creative practice Readers will discover in the tone and trajectory of the chapters a serious engagement with how to determine current knowledge how to confirm or challenge that knowledge and broadly how to progress our knowledge of Creative Writing Practical considerations prevail and there is a clear sense in which Creative Writing is an activity not a static thing to be examined in a fixed state and discussed as a completed object Rather Creative Writing in this book is a range of events and their results a human activity that draws on many individual actions cultural and historical contexts and in its undertaking presents evidence that reflects on the knowledge and belief that informs and produces it
