[Visualizing the Past in Italian Renaissance Art](#) Jennifer Cochran Anderson, Douglas N. Dow, 2021-03-22 The essays in Visualizing the Past in Italian Renaissance Art address a foundational concept that was as central to early modern thinking as it is to our own that the past is always an important part of the present Written by the friends students and colleagues of Dr Brian Curran former professor of Art History at the Pennsylvania State University these

authors demonstrate how reverberations of the past within the present are intrinsic to the ways in which we think about the history of art. Examinations of sculpture, painting, and architecture reveal the myriad ways that history has been appropriated, reinvented, and rewritten as subsequent generations including the authors collected here have attained new insight into the past and present. Contributors: Denise Costanzo, William E. Wallace, Theresa A. Kutasz Christensen, Ingrid Rowland, Anthony Cutler, Marilyn Aronberg Lavin, Louis Alexander Waldman, Elizabeth Petersen, Cyron Stuart Lingo, Jessica Boehman, Katherine M. Bentz, Robin L. Thomas, and John Pinto.

**Hidden Histories** D. Medina Lasansky, 2018-01-10. Tuscany is a landscape whose cultural construction is complicated and multi-layered. It is this very complexity that this book seeks to untangle. By revealing hidden histories, we learn how food, landscape, and architecture are intertwined, as well as the extent to which Italian design and contemporary consumption patterns form a legacy that draws upon the Romantic longings of a century before. In the process, this book reveals the extent to which Tuscany has been constructed by Anglos and what has been distorted, idealized, and even overlooked in the process.

**Imagining Early Modern Histories** Dr. Elizabeth Ketner, Professor Allison Kavey, 2016-01-28. Interpreting textual mediations of history in early modernity, this volume adds nuance to our understanding of the contributions fiction and fictionalizing make to the shape and texture of versions of and debates about history during that period. Geographically, the scope of the essays extends beyond Europe and England to include Asia and Africa. Contributors take a number of different approaches to understand the relationship between history, fiction, and broader themes in early modern culture. They analyze the ways fiction writers use historical sources; fictional texts translate ideas about the past into a vernacular accessible to broad audiences; fictional depictions and interpretations shape historical action; and the ways in which nonfictional texts and accounts were given fictional histories of their own, intentionally or not, through transmission and interpretation. By combining the already contested idea of fiction with performance, action, and ideas, ideology, this collection provides a more thorough consideration of fictional histories in the early modern period. It also covers more than two centuries of primary material, providing a longer perspective on the changing and complex role of history in forming early modern national, gendered, and cultural identities.

**Renaissance skin** Evelyn Welch, 2025-07-01. A magnificently illustrated study of skin in Renaissance Europe. People in the Renaissance saw skin differently from how we do today. The Europe of 1500 to 1700 was a world of humours, and skin, the clothing of the body, was thought to be dangerously porous. In this landmark book, Evelyn Welch explores Renaissance skin as a bodily surface, as physical matter, and as a generator of new knowledge. Ranging across anatomy, surgery, and sausage making, she reveals how

skin was managed by physicians as well as by glovemakers butchers and parchment makers How did people protect their health in a changing global environment one where the air itself could be pathogenic How did they see their bodies in a world where there was suddenly a multiplicity of skin colours and decorations Addressing these questions and more Welch show us what happens when you see skin differently either in the marketplace where men and women from far away lands were put on display or under the microscope In doing so she reveals that the past had a distinctive and very different way of understanding bodily experiences
