University of Michigan Official Publication ,1942 **A New History of the Humanities** Rens Bod,2013 Offers the first overarching history of the humanities from Antiquity to the present **British Decolonisation, 1918-1984** Richard Davis,2013-10-03 Few subjects have aroused more controversy in recent years than that of empire and that of the British Empire in particular Few other subjects are of greater importance to today s world How the British Empire was created and maintained and the impact it had on both the colonised and the colonisers have been the source of long running and heated debates amongst historians politicians and in the media For several decades it has been analysed from numerous different perspectives providing a wide range of differing interpretations Over recent years new studies have extended the scope of imperial history into previously ignored fields that have significantly added to our understanding Imperial history can therefore no longer be regarded as the exclusive realm of the political historian or the reserve of an essentially British approach The British Empire was complex Each of the far flung components that made it up had its own particularities At various times and in various places it took on different forms and had different meanings It affected people across the globe in a multitude of ways This inevitably produces a multi faceted picture The large number of actors in Britain and in the colonised world who played a part in its history adds to this impression As a consequence it is difficult to come up with one all encompassing history of the British Empire All these aspects of the British Empire are apparent in the story of how it ended What precisely decolonisation was how it came about and what it meant for the British and for those who gained their independence varied considerably from one part of the Empire to another and from one period to another How these changes came about how independence was won across the colonial world and how it was resisted are dealt with here across a selection of different case studies Understanding how the British Empire collapsed tells us a great deal about what this Empire was and about its legacy in today s world **The Statesman's Year-Book** M. Epstein,2016-12-27 The classic reference work that provides annually updated information on the countries of the world British-Ottoman Relations, 1661-1807 Michael Talbot,2017 The British Embassy in Istanbul was unique among other diplomatic missions in the long eighteenth century in being financed by a private commercial monopoly the Levant Company In this detailed study Michael Talbot shows how the intimate relation between commercial interest and diplomatic practice played out across the period from the arrival of an ambassador from the restored British crown in 1661 to the sudden evacuation of his successor and the outbreak of the first Ottoman War in 1807 Using a rich variety of sources in English Ottoman Turkish and Italian some of them never before examined including legal documents financial ledgers and first hand accounts from participants he reconstructs the detail of diplomatic practice in rituals of gift giving and hospitality within the Ottoman court examines the at times very different meanings that they held for the British and Ottoman participants and traces the ways in which the declining fortunes of the Levant company directly affected the ability of the embassy to perform effectively within Ottoman

conventions at a time when rising levels of British violence in and around the Ottoman realm marked the journey towards British imperialism in the region MICHAEL TALBOT is Lecturer in History at the University of Greenwich *The Statesman's Year-Book* Mortimer Epstein, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world Sephardic Studies in the University Jane S. region's geopolitical importance is its vast oil wealth which has positioned MENA as a cornerstone of the global energy market and a continuous focus of Western interest. This book explores how oil exploitation has economically empowered the region while simultaneously fostering political tension, external interventions, and instability. As the global shift toward green technologies accelerates, the book examines how this transition might redefine MENA's role in the global energy market, offering both challenges and opportunities for transformation. These dynamics unfold against the backdrop of water scarcity and a scorching inhospitable climate that further complicates the region's path forward. Grounded in real-life case studies and an interdisciplinary blend of historical, cultural, and economic analysis, this book offers an unparalleled exploration of the MENA region's past, present, and future in the context of advanced technological development. Co-authored by a Palestinian native, it brings a unique perspective by dissecting ongoing identity crises through unbiased insights and true-life conversations with individuals who have embraced diverse religious and political ideologies. By intertwining these narratives with the region's deeply rooted cultural practices, the book presents a compelling human lens to understand MENA's complexities. This rare and thought-provoking study seamlessly balances traditional and modern perspectives, emphasizing the MENA region's pivotal role at the intersection of Western powers and the Global South. For readers seeking to grasp the intricate dynamics of a region that continues to influence and adapt to an ever-changing global order, this book serves as an indispensable resource.

Conversations with Orhan Pamuk Erdağ Göknar, Pelin Kivrak, 2024-01-18. In over thirty interviews conducted between 1982 and 2022, *Conversations with Orhan Pamuk* reveals a writer of intense literary and political engagement. Nobel laureate Orhan Pamuk (b. 1952) is a foremost practitioner of the global novel today. His books have been translated into over sixty languages and sold over fifteen million copies globally. The interviews in this volume open windows onto Pamuk's everyday life, craft, and process, constituting an alternative literary history that provides insights into the novelist's influences, method, form, and content. These conversations reveal that a Pamuk novel is predicated on methodical research at times archival and scholarly, investigative and journalistic, or ethnographic. They are necessarily instructive and edifying as much as they are entertaining, providing a discursive space of literary history where writing, politics, and the everyday intersect and where the politics of literature can be located.
