Sea Power and the Asia-Pacific Geoffrey Till, Patrick Bratton, 2012-02-07 This volume examines the rise and fall of sea powers in the Asia Pacific region **Southeast Asia and the Rise of Chinese and Indian Naval Power** Sam Bateman, Joshua Ho, 2014-06-03 This book examines the emerging maritime security scene in Southeast Asia It considers highly topical implications for the region of possible strategic competition between China and India the rising naval powers of Asia with a possible naval arms race emerging between these countries both with naval force development and operations As part of its Look East policy India has deployed naval units to the Pacific Ocean for port visits and exercises both with East Asian navies and the US Navy but India is also concerned about the possibility of the Chinese Navy operating in the Indian Ocean Even as the US India defence relationship continues to deepen the US and China are struggling to build a closer links China s and India s strategic interests overlap in this region both in maritime strategic competition or conflict which might be played out in the Bay of Bengal the Malacca and Singapore Straits and the South China Sea The sea lines of communication SLOCs through Southeast Asian waters constitute vital choke points between the Indian and Pacific Oceans carrying essential energy supplies for China and other Northeast Asian countries Any strategic competition between China and India has implications for other major maritime players in the Pacific and Indian Oceans especially Australia the Republic of Korea and Japan as well as the US This book identifies possible cooperative and confidence building measures that may contribute to enhanced relations between these two major powers and dampen down the risks associated with their strategic competition

The Rise of the Indian Navy Harsh V. Pant, 2016-03-03 The Indian Navy has gradually emerged as an indispensable tool of Indian diplomacy in recent years making it imperative for Indian policy makers and naval thinkers to think anew the role of the nation s naval forces in Indian strategy There is a long tradition in India of viewing the maritime dimension of security as central to the nation s strategic priorities With India s economic rise India is trying to bring that focus back making its navy integral to national grand strategy This volume is the first full length examination of the myriad issues that have emerged out of the recent rise of Indian naval power **The Rise of Naval Power in Asia-Pacific** Geoffrey Till, 2011 **India as an**

Asia Pacific Power David Brewster, 2012-03-12 This book provides a comprehensive assessment of India s international relations in the Asia Pacific region It charts the development of India s increasingly important role as a major world power discusses India s international relations strategy and examines India s relationship with each of the major countries of East and Southeast Asia **China's Naval Power** Yves-Heng Lim, 2016-05-23 The rapid modernization of the Chinese Navy is a well documented reality of the post Cold War world In two decades the People s Liberation Army Navy has evolved from a backward force composed of obsolete platforms into a reasonably modern fleet whose growth is significantly shaking the

naval balance in East Asia The rationale behind China s contemporary rise at sea remains however difficult to grasp and few people have tried to see how the current structure of the international system has shaped Chinese choices This book makes

sense of Chinese priorities in its naval modernization in a robust offensive realist framework Drawing on Barry Posen's works on sources of military doctrine it argues that the orientation of Beijing's choices concerning its naval forces can essentially be explained by China's position as a potential regional hegemon Yves Heng Lim highlights how a rising state develops naval power to fulfil its security objectives a theoretical perspective that goes farther than the sole Chinese case
