Law after Modernity Sionaidh Douglas-Scott, 2014-07-18 How can we characterise law and legal theory in the twenty first century Law After Modernity argues that we live in an age after Modernity and that legal theory must take account of this fact The book presents a dynamic analysis of law which focusses on the richness and pluralism of law on its historical embeddedness its cultural contingencies as well as acknowledging contemporary law's global and transnational dimensions However Law After Modernity also warns that the complexity fragmentation pluralism and globalisation of contemporary law may all too easily perpetuate injustice In this respect the book departs from many postmodern and pluralist accounts of law Indeed it asserts that the quest for justice becomes a crucial issue for law in the era of legal pluralism and it investigates how it may be achieved The approach is fresh contextual and interdisciplinary and unusually for a legal theory work is illustrated throughout with works of art and visual representations which serve to re enforce the messages of the book

Iris Murdoch, Gender and Philosophy Sabina Lovibond, 2011-04-15 Iris Murdoch was one of the best known philosophers and novelists of the post war period In this book Sabina Lovibond explores the tangled issue of Murdoch's stance towards gender and feminism drawing upon the evidence of her fiction philosophy and other public statements As well as analysing Murdoch's own attitudes Iris Murdoch Gender and Philosophy is also a critical enquiry into the way we picture intellectual and especially philosophical activity Appealing to the idea of a social imaginary within which Murdoch's work is located Lovibond examines the sense of incongruity or dissonance that may still affect our image of a woman philosopher even where

egalitarian views officially hold sway The first thorough exploration of Murdoch and gender Iris Murdoch Gender and Philosophy is a fresh contribution to debates in feminist philosophy and gender studies and essential reading for anyone interested in Murdoch s literary and philosophical writing Aesthetics After Modernism Diarmuid Costello,2024 Aesthetics after Modernism argues for the ongoing relevance of aesthetics to art after modernism In it I show that even what are typically taken to be the hardest of hard cases engage us in recognisably aesthetic ways and as such remain amenable to aesthetic analysis Why if that is true do so many art theorists critics and sometimes even artists appear to think otherwise I trace the artworld s rejection of aesthetic theory to Clement Greenberg s success in co opting the discourse of aesthetics notably Kant s aesthetics to underwrite his own formalism about modernist art Not only has this led to Kant being tarred with the brush of Greenbergian formalism it has also led critics and theorists of later art to miss the resources of the aesthetic tradition perhaps especially Kant for capturing what is distinctive about our cognitive relation to the kinds of art that interest them There is a tendency simply to assume that Kant s aesthetics cannot speak to the more conceptual aspects of our interactions with art I trace the legacy of Greenberg s modernism and formalism for later art criticism and theory before offering an interpretation of Kant s theory of art that seeks to show otherwise I take Conceptual Art as my test case here is a form of art that often claims to forgo sensible properties altogether But if Kant s aesthetics can accommodate to our cognitive relation to art with no sensible features relevant to its appreciation as art then it should in principle withstand the challenge of any form of art **Philosophy, Black Film, Film Noir** Dan Flory,2008-01-01 Examines how African American as well as international films deploy film noir techniques in ways that encourage philosophical reflection Combines philosophy film studies and cultural studies Provided by publisher *The Psychogeography of Urban Architecture* David Prescott-Steed,2013 This praxis based book explores how an improvisational creative and embodied practice such as the derive works to defamiliarise our experience of the late modern built environment fostering new insight into routinised cultural behaviours In addition to detailing the key contexts of modernity this book includes case studies on the work of Viktor Shklovsky Craig Raine Georges Perec plus rare scholarly attention to the postcards of Jim Henson s Uncle Traveling Matt Tertiary students and early career researchers in the humanities particularly cultural theory and the creative arts will read about the work of internationally recognised artists who have responded creatively to the urban landscape in view of its habituation under advanced capitalism The research aims to provide sufficient detail for the reader to recognise a range of cultural conditions pertaining to the historical period that frames contemporary quotidian experience and that in turn informs a wide range of reflexive creative practices The book s hybridity complimenting a traditional scholarly style with auto ethnographic and journalistic writing offers the reader an authorial honesty transparency and humanity in its intellectual practical and emotional negotiation of psychogeographic ideas *Plato, Aristotle and Socrates , A Companion to Environmental Philosophy* Dale Jamieson,2008-04-15 A Companion to Environmental Philosophy is a pioneering work in the

burgeoning field of environmental philosophy This ground breaking volume contains thirty six original articles exemplifying the rich diversity of scholarship in this field Contains thirty six original articles written by international scholars Traces the roots of environmental philosophy through the exploration of cultural traditions from around the world Brings environmental philosophy into conversation with other fields and disciplines such as literature economics ecology and law Discusses environmental problems that stimulate current debates

Metaphors, Narratives, Emotions Stefán Snævarr, 2010-01-01

This book argues that there is a complex logical and epistemological interplay between the concepts of metaphor narrative and emotions They share a number of important similarities and connections In the first place all three are constituted by aspect seeing the seeing as or perception of Gestalts Secondly all three are meaning endowing devices helping us to furnish our world with meaning Thirdly the threesome constitutes a trinity Emotions have both a narrative and metaphoric structure and we can analyse the concepts of metaphors and narratives partly in each other's terms Further the concept of narratives can partly be analysed in the terms of emotions And if emotions have both a narrative structure and a metaphoric one then the concept of emotions must to some extent be analysable through the concepts of narratives and metaphors But there is more Metaphors especially poetic ones are important tools for the understanding of the tacit sides of emotions perhaps because of the metaphoric structure of emotions The notion that narrations can be tools for understanding emotions follows from two facts narrations are devices for explanation and emotions have a narrative structure Fourthly the threesome has an impact on our rationality It has become commonplace to say that emotions have a cognitive content that narratives have an explanatory function and that metaphors can perform cognitive functions This book is the first attempt to articulate the implications that these new ways of seeing the three concepts entail for our concept of reason The cognitive roles of the threesome suggest a richer notion of rationality than has traditionally been held a rationality enlivened with metaphoric narrative and emotive qualities
