Angelopoulou explores the intricate connections between sensory experience language physical movement and affect focusing on the way inter corporeal processes unfold on the stage and within the theatre space She demonstrates how thinking with and through the body can ultimately encourage the spectator as well as the reader to participate in the act of sense making Each chapter traces distinct somatic themes indicating how these contribute to a play s aesthetics ethics and narrative arc By employing the human sensorium as a hermeneutic device *The Body and the Senses in Greek Tragedy* offers a compelling methodology for studying language subjective experience and performance reception in Greek drama

Athenian Tragedy in Performance Melinda Powers,2014-05-01 Foregrounding critical questions about the tension between the study of drama as literature versus the study of performance Melinda Powers investigates the methodological problems that arise in some of the latest research on ancient Greek theatre She examines key issues and debates about the fifth century theatrical space audience chorus performance style costuming properties gesture and mask but instead of presenting a new argument on these topics Powers aims to understand her subject better by exploring the shared historical problems that all scholars confront as they interpret and explain Athenian tragedy A case study of Euripides s *Bacchae* which provides more information about performance than any other extant tragedy demonstrates possible methods for reconstructing the play s historical performance and also the inevitable challenges inherent in that task from the limited sources and the difficulty of interpreting visual material to the risks of conflating actor with character and extrapolating backward from contemporary theatrical experience As an inquiry into the study of theatre and performance an introduction to historical writing a reference for further reading and a clarification of several general misconceptions about Athenian tragedy and its performance this historiographical analysis will be useful to specialists practitioners and students alike

**Gender and Communication in Euripides' Plays** J.H. Kim On Chong-Gossard,2008-08-31 The prominent role of women in Greek drama has always fascinated readers This book proposes that women in Euripides plays communicate in ways constructed by the tragic genre itself as female Yet these women s words are surprisingly not uniformly dangerous or excessively emotional as has traditionally been thought Rather Euripides women resort to female ways of talking in order to enable others to understand them and their unique point of view Aspects of women s speech song silence and secret keeping as female verbal genres and the challenges of speaking out of place contribute to Euripides portrayal of women as different from men Originating in a culture where putting women under scrutiny was part of daily life Euripides tragedies dramatise women s constant struggle to control language

the genres developed together were performed together and influenced each other to the extent of becoming polar opposites In Aristophanes and His Tragic Muse Stephanie Nelson considers this opposition through an analysis of how the genres developed by looking at the tragic and comic elements in satyr drama and by contrasting specific Aristophanes plays with tragedies on similar themes such as the individual the polis and the gods The study reveals that tragedy s focus on necessity and a quest for meaning complements a neglected but critical element in Athenian comedy its interest in freedom and the ambivalence of its incompatible visions of reality

**Resemblance and Reality in Greek Thought** Arum Park,2016-09-13 Resemblance and Reality in Greek Thought follows the construction of reality from Homer into the Hellenistic era and beyond Not only in didactic poetry or philosophical works but in practically all genres from the time of Homer onwards Greek literature has shown an awareness of the relationship between verbal art and the social historical or cultural reality that produces it an awareness that this relationship is an approximate one at best and a distorting one at worst This central theme of resemblance and its relationship to reality draws together essays on a range of Greek authors and shows how they are unified or allied in posing similar questions to classical literature
