## **The Primal Place Robert Finch:**

*The Primal Place* Robert Finch, 2007-05-09 From acclaimed author and naturalist Robert Finch a richly detailed observance of Cape Cod's seemingly vanished natural and human past as it clings to its present landscape This is a voyage of discovery a personal odyssey into the nature of a single Cape Cod neighborhood It is a rich portrait beautifully drawn of a landscape and a community whose essential character lies in their penetrating interface with the sea But it is also an individual quest a journey of the heart and mind in which the author seeks entrance or rather re entrance into that vast living maze stretching out beyond my lines of sight

*The Human Shore* John R. Gillis, 2012-10-17 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In *The Human Shore* a magisterial account of 100 000 years of seaside civilization John R. Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal *The Human Shore* is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end

*Nature and Walking* Ralph Waldo Emerson, Henry David Thoreau, 2012-03-06 Together in one volume Emerson's *Nature* and Thoreau's *Walking* is writing that defines our distinctly American relationship to nature

**Landscape With Figures** Kent C. Ryden, 2009-05-07 Kent Ryden does not deny that the natural landscape of New England is shaped by many centuries of human manipulation but he also takes the view that nature is everywhere close to home as well as in more remote wilderness in the city and in the countryside In *Landscape with Figures* he dissolves the border between culture and nature to merge ideas about nature experiences in nature and material alterations of nature Ryden takes his readers from the printed page directly to the field and back again He often bypasses books and goes to the trees from which they are made and the landscapes they evoke then returns with a renewed appreciation for just what an interdisciplinary historically informed approach can bring to our understanding of the

natural world By exploring McPhee's *The Pine Barrens* and Ehrlich's *The Solace of Open Spaces* the coastal fiction of New England surveying and Thoreau's *The Maine Woods* Maine's abandoned Cumberland and Oxford Canal and the natural bases for New England's historical identity Ryden demonstrates again and again that nature and history are kaleidoscopically linked

*Outlands* Robert Finch, 1986 Eighteen essays describe the author's experiences exploring the outer half of Cape Cod and share his observations on nature ecology and the relationship between people and their environment

**The Last Undiscovered Place** David K. Leff, 2004 Through descriptions of the town's schools streets homes and natural surroundings Leff offers this affectionate insightful portrait of his adopted home of Collinsville Connecticut a village that looked perfectly ordinary until he fell prey to its rhythms and charm

*At Home on the Earth* David Landis Barnhill, 1999-08-05 The physical earth is clearly under unprecedented siege heated toxified scraped But almost as if they were antibodies the finest nature writers of any era have come forward to help in the fight This anthology collects many of the most important at their most eloquent May it ring and echo and do some good

Bill McKibben author of *The End of Nature* This is a stunning collection of vivid writing about landscapes and the people who inhabit them The diverse narratives gathered here do more than describe hawks diving and twigs snapping although the book has its share of moving accounts of the natural world A concern to live responsibly in nature runs through this evocative anthology like a subterranean stream and that moral impulse together with the lively prose makes this the best collection of nature writing I've seen

Thomas A Tweed editor of *Retelling U S Religious History*

**Summers in Squid Tickle** Robert Finch, 2025-06-17 An acclaimed nature writer's moving recollection of his two decades as a summer resident of a Newfoundland fishing village originally known as Squid Tickle Robert Finch arrived in Newfoundland in the summer of 1995 heartsick directionless his old life on Cape Cod in tatters Burnside located in Newfoundland's rugged northeast seemed like a good place to heal The coastal village was home to just fifty year round residents and accessible only by a hundred mile ferry crossing Finch was drawn in by the landscape of low ridges and archipelagos of rocky islands but he returned to Burnside for its strong sense of community and the possibility that it might provide a new pattern for his own life Eventually Finch became a summer resident buying a house playing organ for the church and fishing the area's waters Offering a portrait of the Newfoundland character and culture *Summers in Squid Tickle* explores how three generations of the village have grappled with the changes of the past century from the rise and collapse of commercial cod fishing and the migration of young people away from the outport to the distant hope for tourism and new industries to sustain a disappearing way of life With characteristically elegant prose and deep sensitivity Finch introduces us to *Squid Tickle*'s inhabitants a collection of hardy fishermen vigorous retirees and close neighbors as well as the woman who would become his wife Even as the fish in *Squid Tickle*'s waters vanish Finch sketches the enduring relationship of a village with the sea for food work leisure and a rich community life in the midst of an unforgiving but stunning landscape *Summers in Squid Tickle* speaks to the desire we all have in our era to seek quiet and to reevaluate our connection to each other and

the natural world      *Mapping the Invisible Landscape* Kent C. Ryden, 1993 Any landscape has an unseen component a subjective component of experience memory and narrative which people familiar with the place understand to be an integral part of its geography but which outsiders may not suspect the existence of. Unless they listen and read carefully This invisible landscape is made visible through stories and these stories are the focus of this engrossing book. Traveling across the invisible landscape in which we imaginatively dwell Kent Ryden himself a most careful listener and reader asks the following questions What categories of meaning do we read into our surroundings What forms of expression serve as the most reliable maps to understanding those meanings Our sense of any place he argues consists of a deeply ingrained experiential knowledge of its physical makeup an awareness of its communal and personal history a sense of our identity as being inextricably bound up with its events and ways of life and an emotional reaction positive or negative to its meanings and memories Ryden demonstrates that both folk and literary narratives about place bear a striking thematic and stylistic resemblance Accordingly *Mapping the Invisible Landscape* examines both kinds of narratives For his oral materials Ryden provides an in depth analysis of narratives collected in the Coeur d Alene mining district in the Idaho panhandle for his consideration of written works he explores the OC essay of place OCO the personal essay which takes as its subject a particular place and a writer s relationship to that place Drawing on methods and materials from geography folklore and literature *Mapping the Invisible Landscape* offers a broadly interdisciplinary analysis of the way we situate ourselves imaginatively in the landscape the way we inscribe its surface with stories Written in an extremely engaging style this book will lead its readers to an awareness of the vital role that a sense of place plays in the formation of local cultures to an understanding of the many layered ways in which place interacts with individual lives and to renewed appreciation of the places in their own lives and landscapes      **Cape Cod** Robert Finch, 1993 Spine title reads Cape Cod National Seashore On cover Official National Park Handbook Describes the cultural and natural history of Cape Cod Examines the land the sea and recent transformations in the peninsula Provides a concise travel guide and reference materials      *Writing Natural History* Edward Lueders, 1989 The edited record of four public dialogues held at the University of Utah in 1988 between eminent writers in the fields of natural history      **American Nature Writers** John Elder, 1996 The Scribner Writers Series has set the standard for literary reference for more than 25 years In addition to addressing the lives and careers of important writers the articles discuss the themes and styles of major works and place them in pertinent historical social and political contexts for today s readers Novelists playwrights essayists poets short story writers and more recently genre writers in science fiction and mystery are all expertly discussed in the more than 16 sets comprising this series The essays in the set combine biography criticism and in some cases original interviews to tell the story of each author This set includes 70 biographical critical essays on such writers as Rachel Carson Ralph Waldo Emerson Henry David Thoreau and Gary Snyder and 12 general subject essays      *Walking Seasonal Roads* Mary A. Hood, 2012-05-18 Seasonal roads are defined as one lane dirt

roads not maintained during the winter They function as connectors linking farmers to their fields neighbors to neighbors or two more well traveled roads to each other Some access hunting lands and recreational areas Some pass by cemeteries allowing people to visit and honor their dead They can be abandoned as people move and towns fade In every incarnation the seasonal road touches the land in a gentler way than do other roads Having traveled nearly every seasonal road in Steuben County New York Hood finds they provide the ideal vantage to contemplate the meaning of place offering intimate contact with plant and wildlife and the beauty of a rural landscape Each road reveals how our land is used how our land is protected and how environmental factors have impacted the land As a literary naturalist Hood reflects on endangered species and invasive species as well as on issues of conservation and sustainability From state forests to potato fields from development along Keuka Lake to vineyards from old family cemeteries to logging sites Walking Seasonal Roads is a celebration and an honoring of the rural and the regionalism of place illustrating the ways we connect to our home and to each other The British National Bibliography Arthur James Wells,1979 **Sierra Club Bulletin** Sierra Club,1986 Includes section Book reviews *The Iambics of Newfoundland* Robert Finch,2008-05-01 For nearly a decade Robert Finch traveled around the edge of North America the stunning yet seriously inhospitable island of Newfoundland Here he chronicles the people geography and wildlife of this remote and lovely place In beautifully written essays sketches and stories Finch roams from verdant valleys to the rocky cliffs of Cape Spear from Sandy Cove to Squid Tickle from the steep streets of historic St John s to the moss covered tundra of the southern coast As he describes the land he brings to life the island s diverse array of characters newcomers and old timers fisherman hunters hitchhikers and children Most of all *The Iambics of Newfoundland* shows readers the island itself an ancient place tucked between provinces languages and cultures struggling to find a footing in the modern world Handbook ,1979 **Refiguring the Map of Sorrow** Mark Christopher Allister,2001 Allister English St Olaf College examines works by six authors which fuse autobiography literary nonfiction and environmental literature into a distinct form of grief narrative Each of these authors begins in depression that shadows grief each comes to put an end to depression to move through mourning by turning observations and stories of the external world into a narrative that heals The six works featured are Sue Hubbell s *A Country Year* Terry Tempest Williams *Refuge* Bill Barich s *Laughing in the Hills* William Least Heat Moons *Blue Highways* Peter Matthiessen s *The Snow Leopard* and Gretel Ehrlich s *The Solace of Open Spaces* Annotation copyrighted by Book News Inc Portland OR **The Power of Two** Penny Bishop,Garet Allen-Malley,2004 **Explorer's Guide Cape Cod, Martha's Vineyard & Nantucket (12th Edition)** Kim Grant,2021-03-30 Experience the very best of New England s premier vacation destination The most detailed and trusted guide to Cape Cod and its surrounding vacation sites has been revamped for its 12th edition Explorer s Guide Cape Cod Martha s Vineyard Nantucket offers helpful and organized information on all the natural beauty and entertaining attractions the Cape and its islands have to offer no matter your taste or budget Read hundreds of dining reviews ranging from America
