The Realms of the Gods , Cosmologies of Pure Realms and the Rhetoric of Pollution Yohan Yoo, James W. Watts, 2021-05-30 This collaboration between two scholars from different fields of religious studies draws on three comparative data sets to develop a new theory of purity and pollution in religion arguing that a culture s beliefs about cosmological realms shapes its pollution ideas and its purification practices. The authors of this study refine Mary Douglas foundational theory of pollution as matter out of place using a comparative approach to make the case that a culture s cosmology designates which materials in which places constitute pollution By bringing together a historical comparison of Ancient Near Eastern and Mediterranean religions an ethnographic study of indigenous shamanism on Jeju Island Korea and the reception history of biblical rhetoric about pollution in Jewish and Christian cultures the authors show that a cosmological account of purity works effectively across multiple disparate religious and cultural contexts They conclude that cosmologies reinforce fears of pollution and also that embodied experiences of purification help generate cosmological ideas Providing an innovative insight into a key topic of ritual studies this book will be of vital interest to scholars and graduate students in religion biblical studies and anthropology In the Realm of the Gods Victoria Baldwin Cass, 2007 Victoria Cass brings China's mythic landscape to life These stories draw the reader into a dimension that hovers over a magical landscape where ordinary mortals confront extraordinary powers This is a journey into the psyche of eternal China Christine Mathieu co author of Leaving Mother Lake A Girlhood at the Edge of the World China is a land that has fascinated the world for centuries Take a journey in this book back to a China that is both stunning and mysterious back to the places where tales of magic were born Victoria Cass retells both popular and little known stories of emperors and empresses ghosts spirits warriors maidens and magical realms amid landscapes potent with history The stories are arranged by geography providing
