Walking Shadows Ib Johansen, 2015-08-25 *Walking Shadows* focuses on the American fantastic and the American grotesque attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell David Reynolds and William Van O Connor A number of literary works from the beginning of the nineteenth to the end of the twentieth centuries are taken up in order to illustrate the inherent links or family resemblances between the two modes with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados but also to philosophically minded readers in general in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty first century post structuralism and deconstruction where the classic positions of Foucault Derrida et al still appear to be relevant

In the Shadow of the Ivory Tower Davarian L. Baldwin, 2021-03-30 Across America universities have become big businesses and our cities their company towns But there is a cost to those who live in their shadow Urban universities play an outsized role in America's cities They bring diverse ideas and people together and they generate new innovations But they also gentrify neighborhoods and exacerbate housing inequality in an effort to enrich their campuses and attract students They maintain private police forces that target the Black and Latinx neighborhoods nearby They become the primary employers dictating labor practices and suppressing wages In the Shadow of the Ivory Tower takes readers from Hartford to Chicago and from Phoenix to Manhattan revealing the increasingly parasitic relationship between universities and our cities Through eye-opening conversations with city leaders low wage workers tending to students' needs and local activists fighting encroachment scholar Davarian L. Baldwin makes clear who benefits from unchecked university power and who is made vulnerable In the Shadow of the Ivory Tower is a wake up call to the reality that higher education is no longer the ubiquitous public good it was once thought to be But as Baldwin shows there is an alternative vision for urban life one that necessitates a more equitable relationship between our cities and our universities
