The Political Logic of Economic Reform in China Susan L. Shirk, 1993 In the past decade China was able to carry out economic reform without political reform while the Soviet Union attempted the opposite strategy How did China succeed at economic market reform without changing communist rule Susan Shirk shows that Chinese communist political institutions are more flexible and less centralized than their Soviet counterparts were Shirk pioneers a rational choice institutional approach to analyze policy making in a non democratic authoritarian country and to explain the history of Chinese market reforms from 1979 to the present Drawing on extensive interviews with high level Chinese officials she pieces together detailed histories of economic reform policy decisions and shows how the political logic of Chinese communist institutions shaped those decisions Combining theoretical ambition with the flavor of on the ground policy making in Beijing this book is a major contribution to the study of reform in China and other communist countries The Political Logic of Economic Reform in China Susan L. ideological currents and economic reforms Law and Political Economy in China Tamar Groswald Ozery, 2023-08-24 Combines law and political economy as a novel analytical framework to deconstruct China's market development and Ideology and Economic Reform Under Deng Xiaoping, 1978-1993 Wei-Wei corporate evolution since 1978 Zhang, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company of Economic Reforms in India and Chin Rajiv G. Maluste, 2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries. This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India's economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership's attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India s integration into the global economy. The dissertation also discusses the comparable role of attitudinal changes at the start of China's policy liberalisation led by Deng Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China's political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation **The China Handbook** Christopher Hudson, 2014-06-03 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century Like the other titles in the series the China Handbook explores a wide range of complex factors including overviews of the region s economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region s economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition this resource offers a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical The Nanxun Legacy and China's Development in the Post-Deng Era John Wong, Yongnian Zheng, 2001 In the index spring of 1992 Deng Xiaoping made a historical tour of south China popularly known as the Nanxun southern tour During the

tour he boldly called for more radical economic reform and further opening up of China The Nanxun has become a political landmark in the history of the People's Republic of China much like great events such as the Great Leap Forward the Cultural Revolution and the 1989 Tiananmen crackdown Deng Xiaoping has left his own legacy for the country The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat sen and the communist revolution to Mao Zedong In this collection of articles leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country A Political Economy Analysis of China's Civil Aviation Industry Mark Dougan, 2016-04-29 First published in 2002 This volume is a political economy analysis of China's civil aviation industry with a focus on the reform period beginning in the late 1970s up to the present The chief aim is to identify and analyze the most important political economy variables impacting on the industry's development during this time
